Symposium About Families : documents

Symposium About Families (1989 : Regina, Sask.). Regina : The Province, 1989. 3 v. : ill. Bibliogr. Hosted by the Government of Saskatchewan. Contents: Vol. 1 : Speakers' papers -- vol. 2 : Question and answer periods -- vol. 3 : Delegates' workshops. MICROLOG 91-02972 7 fiche

The purpose of the symposium was to allow governments and others to be exposed to a broad spectrum of views about supporting and strengthening families in Canada. Topics include: education and families, law and families, work and family life, the health of families, serving vulnerable families, the family in the community, parenting today, family income, communication with and within families, and Canada's families today. Volume 1 presents the text of plenary papers; volume 2 presents the text of question and answer periods; and volume 3 presents the proceedings of delegate workshops.

Synopsis of the parasites of vertebrates : a partially annotated bibliography of meningeal worm *Parelaphostrongylus tenuis* (Nematoda), and its close relatives

W.M. Samuel ; edited by Murray J. Kennedy. Edmonton : Alberta Agriculture, Animal Health Division, 1991. 36 p. Cover title: *Synopsis of the parasites of vertebrates : meningeal worm and its close relatives*. MICROLOG 91-06160 1 fiche

The elaphostrongylines are a small group of lungworm nematodes which cause neurologic disease, pneumonia, and myositis in a variety of domestic and wild hosts. In North America, there are four species, all of which mature in members of the deer family, two associated with skeletal musculature and two with the central nervous system. References in the bibliography are arranged numerically and alphabetically by species. An author and subject index are included.

Synthèse de la documentation internationale sur la sécurité et la prévention de la criminalité dans les milieux résidentiels urbains : rapport interimaire

Société canadienne d'hypothèques et de logement. Ottawa : la Société, 1989. 18 p. Bibliogr. Préparé pour la Conférence européenne et nord-américaine sur la sécurité et la prévention de la criminalité en milieu urbain.
MICROLOG 91-02859 1 fiche

Ce rapport interimaire expose à grands traits les paramètres de l'étude et ses conclusions provisoires. Il a pour objet d'évaluer qualitativement la documentation existante et les expériences connues et de synthétiser les conclusions relatives à la prévention de la criminalité et à la sécurité dans les milieux résidentiels urbains. Il s'arrête principalement sur : les rapports prouvés entre les milieux résidentiels et le taux de criminalité, afin d'établir jusqu'à quel point le logement et les milieux résidentiels ont contribué, positivement ou négativement, à la criminalité ou à la crainte du crime ; et, les stratégies mises à l'essai pour régler les problèmes associés au crime dans les quartiers résidentiels existants.

Systematic errors in river discharge measurements

by V. Grywachski. Regina : Environment Canada, Water Resources Branch, Saskatchewan District, 1989. 9 p. MICROLOG 91-03068 1 fiche

This report evaluates the sensitivity of river discharge measurements to systematic errors in measuring depth, cross-sectional width, and current water meter revolutions in a fixed interval. Five previously computed discharge measurements were selected for 5 flow ranges, then new discharge values were calculated introducing various conditions or errors. The new discharge values were then used to calculate the absolute error and the percent error. A percent error was calculated for each discharge with each condition implemented and a plot was drawn.

The Systematics and distributional ecology of the superfamily Ampeliscoidea (Amphipoda: gammaridea) in the northeastern Pacific region, II : the genera *Byblis* and *Haploops*

by J.J. Dickinson. Ottawa : National Museums

of Canada, National Museum of Natural Sciences, 1983. vi, 38 p. : ill. Bibliogr. (Publications in natural sciences ; 1) ISSN 0714-0983 ISBN 0-662-11271-7 MICROLOG 91-01895 1 fiche

The family Ampeliscoidae is represented in the near shore waters of the northeast Pacific region by three genera. A number of species in the genera *Byblis* and *Haploops* from Oregon and California waters have been described, but no formal taxonomic studies have been made on these genera in B.C. and Alaskan waters. This study treats the systematics and distributional ecology of these genera from the coastal waters of B.C., southeast Alaska, and the Bering Sea. The study was based mainly on collections in the Canadian National Museum of Natural Sciences, collected in the 1960s and 1970s.

Le Système canadien de classification de la végétation : première approximation

Groupe de travail national sur la végétation, Comité canadien de la classification écologique du territoire ; édité par W.L. Strong, E.T. Oswald et D.J. Downing. Ottawa : Environnement Canada, Service canadien de la faune, Direction de la conservation des terres, 1990. v, 22 p. Bibliogr. (Série de la classification écologique du territoire ; no 25) L'éd. anglaise (*The Canadian vegetation...*) sur la même fiche. ISBN 0-662-95663-X MICROLOG 91-02022 1 fiche

Le concept de classification de la végétation permet de réduire la complexité de la végétation naturelle à un petit nombre de groupes assez homogènes et facilement compréhensibles. Il présente des avantages évidents pour les gestionnaires des ressources naturelles, les planificateurs de l'utilisation des terres et les spécialistes de la végétation. Les objectifs du rapport sont les suivants : décrire le cadre du système de classification proposé de la végétation ; et fournir un outil aux spécialistes de la végétation et aux gestionnaires des ressources partout au Canada afin de leur permettre de participer à l'élaboration du système de classification.

Le Système électoral québécois : manuel des connaissances de base

par G. Pageau et J. Laflamme. Québec : Directeur général des élections du Québec, 1990. 121 p. En tête du titre : *Etudes électorales*. ISBN 2-550-21317-3 MICROLOG 91-06433 2 fiche

Ce document fait l'investigation des mécanismes propres au système électoral québécois. Il a comme objectif de fournir les connaissances de base requises pour la bonne compréhension du système électoral du Québec. Le document est divisé en trois parties. La première porte sur le rôle des élections dans un système politique ainsi que sur les composantes qui sont le mode de scrutin et le découpage de la carte électorale dans le système électoral québécois. La seconde partie traite des fonctions de chaque intervenant impliqué dans le système, soit les électeurs, les partis politiques et le Directeur général des élections. Enfin, la dernière partie décrit, de façon chronologique, chacune des opérations d'un événement électoral.

A Tabu search heuristic for the vehicle routing problem

by M. Gendreau, A. Hertz and G. Laporte. Montreal : Université de Montréal, Centre de recherche sur les transports, 1991. ii, 33 p. Bibliogr. (Publication ; no. 777) (Publication ; G-91-31) MICROLOG 91-06351 1 fiche

This paper describes a new tabu search heuristic for the vehicle routing problem with capacity and route length restrictions. The algorithm begins with a set of routes containing one city each and then performs tabu moves consisting of inserting cities into different routes by means of a generalized insertion procedure previously developed. During the course of the algorithm, infeasible solutions are allowed. The algorithm ends with the application of a post-optimization procedure. Numerical tests on a set of benchmark problems are also presented. PR PS QU SC

La Taille et la formation des arbres fruitiers

par G. Tehrani, N.W. Miles et D.C. Elving. Toronto : Ministère de l'agriculture et de l'alimentation, 1988. 43 p. : ill. *L'éd. anglaise (Training and pruning fruit trees)* : 91-05891/1. ISBN 0-7729-6585-4 MICROLOG 91-05996 1 fiche

Le principal objectif de la taille et de la formation des arbres fruitiers est de développer une charpente et une frondaison qui permettent aux feuilles d'obtenir un ensoleillement suffisant. Ce document examine la question en se penchant particulièrement sur les principes de taille et de formation des pommiers, des cerisiers (à fruits doux et à fruits acides), des pêcheurs et des nectariniers, des poiriers, et des pruniers européens et japonais. Take advantage of advance growth when planning harvesting operations

by A. Groot and R.A. Haig. Sault Ste. Marie, Ont. : Forestry Canada, Ontario Region, 1991. 4 p. : ill. Bibliogr. (Technical note ; no. 4) *At head of title: Frontline : forestry research applications*. ISSN 1183-2762 ISBN 0-662-18829-2 MICROLOG 91-05424 1 fiche

With recent limitations on funding and the availability of planting stock, forest managers have become interested in the potential of advance growth to provide growing stock for a new stand. This technical note provides a description and analysis of a survey conducted in the summer of 1982 to examine black spruce advance growth and associated forest conditions more closely. The survey was carried out in 30 undisturbed mature or overmature black spruce stands with peat depth greater than 20 cm. Regeneration data were obtained in 100 2x2 m quadrats in each stand. Basal area and other stand and cover information were also recorded. The height growth of advance growth stems was sampled, and each was classified as seedling or layer, single or multiple stemmed, and whether or not the main stem was vertical. CA FO ON SC

Taking aim : job search strategies for people with disabilities -- Rev.

Toronto : Ministry of Labour, Centre for Disability and Work, 1990. 105 p. *French ed. (Viser juste : brochure à...)* : 91-07093/2. ISBN 0-7729-7967-7 MICROLOG 91-07092 2 fiche

This document discusses the following matters: transportation, resumes, a personal reference list, application forms, salaries, researching an organization, how to apply for a job, discussing disabilities, interview strategies, typical interview questions, interview do's and don'ts, and follow-

up letters and calls.

Taper-volume equations for major tree species of the Yukon Territory

by G.M. Bonnor and P. Boudewyn. Victoria : Forestry Canada, Pacific and Yukon Region, Pacific Forestry Centre, 1990. iv, 18 p. Bibliogr. (Information report ; BC-X-323) ISSN 0830-0453 ISBN 0-662-17988-9 MICROLOG 91-06212 1 fiche

Using stem analysis data from 1,248 trees in the Yukon Territory and a previously published variable-exponent taper equation, taper-volume equations were derived for each ecoregion for lodgepole pine, white spruce, black spruce and aspen. Tests were made to determine if significant differences existed among the ecoregions, or if equations could be derived for ecoregion groups. The practical aspects of using such ecoregion-based equations were also evaluated.

Task Force on Aboriginal Peoples in Federal Corrections : final report

Task Force on Aboriginal Peoples in Federal Corrections (Canada). Ottawa : The Task Force ; National Parole Board, 1989. 109 p. Bibliogr. CSI 21121.202. ISBN 0-662-17401-1 MICROLOG 91-05984 2 fiche

Although aboriginal people comprise 2.5 per cent of Canada's population, they comprise approximately nine per cent of federally incarcerated inmates. This report discusses the requirement for aboriginal-specific approaches, and the correctional context. It includes a statistical profile of federal aboriginal offenders and their conditional release, and information on case decision making. It examines programs and services, and the aboriginal community. It contains a summary of recommendations.

Task Force on Military History Museum Collections in Canada : report

Canada. Task Force on Military History Museum Collections. Ottawa : The Task Force, 1991. x, 55, x, 59 p. Bibliogr. Bilingual (Groupe de travail sur les collections...). ISBN 0-662-58270-5 MICROLOG 91-04224 2 fiche

The Task Force was appointed by the Minister of communications on June 20, 1990. Its terms of reference were to examine strengths and weaknesses in the preservation, development, interpretation and display of Canadian military history collections, including those of the Canadian War Museum and the Canadian Forces museum system. It was also charged with examining the relationships among military museums, and proposing options for strengthening those relationships, including the expansion or modification of the Organization of Military Museums of Canada, or the creation of some other Canada-wide network. This document contains the findings of the Task Force.

Tear-induced release of liposome-entrapped agents

by R.F. Barber and P.N. Shek. Downsview, Ont. : Defence and Civil Institute of Environmental Medicine, 1989. 9 p. : ill. *Bibliogr. (DCIEM publication ; 90-P-16) In International Journal of Pharmaceutics: 60, 1990.*
MICROLOG 91-01909 1 fiche

The successful application of liposomes as delivery devices for drugs and other bio-active compounds in vivo is dependent on the stability of the carrier in the biological milieu. If liposomes can increase the residency time of encapsulated agents in the pre-corneal area, they may serve as suitable carriers for prophylactic agents which could protect the eye against chemical insults. This study demonstrates that multilamellar vesicles are also susceptible to tear-mediated dye release and that tear fluid can also induce the release of acetylcholinesterase, a high molecular weight protein. The paper describes the characterization of the factor(s) involved in tear-mediated leakage by prior heat-treatment and incubation with empty liposomes, using tears collected from normal female New Zealand white rabbits.

Technical and economic assessment of reverse osmosis for treatment of landfill leachate

Zenon Environmental Enterprises, Ltd. Toronto : Waste Management Branch, 1989. 133 p. : ill. *Bibliogr.*
MICROLOG 91-03908 2 fiche

Technical assessment of the application of reverse osmosis (RO) technology for the treatment of landfill leachates, and evaluation of the technical and economic benefits of RO for the treatment of this waste water. The assessment includes evaluation of pretreatment processes used before RO, and evaluation of an RO test system to determine its efficiency in removing contaminants and other performance characteristics such as membrane flux. Technical advantages of the process are considered in light of the results of this experimental work. Capital and operating costs for the RO treatment process were also developed based on the results of the experimental work and compared with costs of conventional treatment practices.

Technology of dormancy release in potato tubers

by W.K. Coleman. Ottawa : Agriculture Canada, Research Branch, 1991. iv, 50 p. : ill. Bibliogr. (Technical bulletin ; 1991-5E) ISBN 0-662-18550-1 MICROLOG 91-03913 1 fiche

Potato tuber dormancy can hinder production of basic nuclear seed stock from greenhouse tubers, sales of Canadian seed potatoes to early export markets and rapid post-harvest disease testing. Dormancy can be released immediately by brief treatment (1-2 days) with bromoethane vapour. The development of a complete, large scale technology for bromoethane application and its safe removal through a capturing technique is necessary for successful application of this dormancy release method. This report presents a design for a dormancy release facility, including a description of the properties, toxicology, mutagenicity, carcinogenicity and flammable hazard of bromoethane; a field and controlled environment evaluation of dormancy release; and some experimental adsorption systems. • AG CA SC

Technology review report on photovoltaic-powered water pumping

Adkinson and Associates. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1989. 206 p. : ill. Bibliogr. *CANMET contract: 23283-7-6314-01-SS*. ISBN 0-662-17138-1 MICROLOG 91-01220 3 fiche

Summary of current technical status of photovoltaic powered water pumping technology and its applications, intended to provide background information to Canadian industry and potential users to assess opportunities for participating in this market. Information was obtained from published documents, research papers and other reports. • CA CM EN PS SC

Technology transfer in a government research office

by G.J.F. Jones and R.A.C. Lockhart. Toronto : Ministry of Transportation, Research and Development Branch, 1990. iii, 12 p. MICROLOG 91-01793 1 fiche

The Ontario Ministry of Transportation is a \$2 billion per year agency responsible for all aspects of transportation. The provincial highways program, one of 5, has had an R and D office for the past 25 years which conducts contract and in-house research into structures, pavements, materials, traffic systems, decision engineering modelling and human factors research. This paper describes the organizational process of the R and D Branch, its interaction with client groups, the technology transfer methods used to implement the results of research, and the technology and programming methods used to manage the

technology transfer system. ON PR PS SC TR

Technology transfer in housing in Alberta

Thorkelsson Architects Ltd. Edmonton : Alberta Municipal Affairs, Housing Division, Financial Assistance and Research Branch, 1988. iv, 126 p. ISBN 0-88654-208-1 MICROLOG 91-03062 2 fiche

In November 1987, a study was undertaken to determine the process by which the housing industry makes decisions about adopting new products and/or methods; to identify barriers to their adoption in Alberta's housing industry; and to identify factors conducive to their adoption. The study focused on oriented strand board, medium density fibreboard, preserved wood foundations, the rigid foam insulation and framing system, drywall clips, the airtight drywall approach, prefab wood 'I' joists, and the 7-S stressed skin panel system. These innovations were investigated through interviews of individuals connected with each, as well as interviews with selected builders to obtain information on their use of, and attitude toward, each of the innovations. Technology, International Affairs and IREQ (Quebec) : Report of activities 1989

Montreal : Hydro-Quebec, 1990. 74 p. : ill. French ed. : 91-02691/1. CSI 67145.012. ISSN 0840-4305 ISBN 2-550-20775-0 MICROLOG 91-02692 1 fiche

This division of Hydro-Quebec conducts research and development in the areas of power generation, transmission and distribution and industrial applications. The annual report reviews generation; transmission; distribution; industrial applications of electricity; test techniques and measuring devices; development projects; long-term projects; new facilities; marketing; collaboration with industry; and international activities. It includes a list of awards and distinctions and an organizational chart. EN PR QU SC

Teen suicide

by A. Shaver. Ottawa : Library of Parliament, Research Branch, 1990. 12 p. Bibliogr. (Background paper ; BP-236E) French ed. (*Le Suicide chez les adolescents) on the same fiche*. ISBN 0-660-13910-3 MICROLOG 91-04887 1 fiche

Major increases took place in Canadian suicide rates in the 1960s and 1970s and, while they have levelled out in the 1980s, they are still at the highest level in Canadian history. A federal Task Force on Suicide in Canada established in 1980 made public its report in 1987. The report shows a marked increase in suicide in the 15-19 age group, most significantly among males. This paper suggests reasons for this increase, and describes some prevention programs. CA CI SA

Le Télémarketing au Canada : rapport aux ministres responsables de la consommation et des corporations

Groupe d'étude fédéral-provincial-territorial sur le télémarketing (Canada). S.I. : le Groupe, 1991. 47, 56 p. *Bilingue (Telemarketing in Canada...)*. MICROLOG 91-04636 2 fiche

Le Groupe d'étude fédéral-provincial-territorial sur le télémarketing a été mis sur pied par les ministres de la Consommation et des Corporations à l'occasion d'une conférence qui s'est tenue à Terre-Neuve en septembre 1989. Il a comme mandat d'examiner les problèmes que rencontrent les consommateurs associés avec les techniques de télémarketing, de

passer en revue les initiatives législatives, volontaires et de réglementation existant dans d'autres administrations et de proposer une démarche coordonnée pour traiter des problèmes. Ce document présente le rapport aux ministres de la consommation et des corporations. • CA CO SC TE

Telemarketing in Canada : a report to ministers responsible for consumer and corporate affairs

Federal/Provincial/Territorial Working Group on Telemarketing (Canada). S.I. : The Group, 1991. 56, 47 p. *Bilingual (Le Télémarketing au Canada...)*. MICROLOG 91-04636 2 fiche

A Working Group on Telemarketing was established as a result of the 1989 Conference of Ministers to examine problems for consumers associated with telemarketing techniques, to review legislative, voluntary and regulatory initiatives existing in other jurisdictions, and to propose a coordinated approach to deal with the problems on a national basis. This document discusses consumer problems and approaches proposed by interest groups. It also presents the Working Group's conclusion and options for action. • CA CO SC TE

Telemetry operations in Saskatchewan

by C. Brumwell, L. Heinze and D. Turgeon. Regina : Environment Canada, Water Resources Branch, Saskatchewan District, 1991. iii, 51 p. MICROLOG 91-04444 1 fiche

A data collection platform (DCP) was formed in February 1988 to review the DCP network in Saskatchewan and recommend improvements to the program. This report presents the results of the review, including the status of the network on March 31, 1989; the need for the current network; cost information on the installation, operation and maintenance of the network and estimated savings; issues under installation, field servicing and operations, data acquisition, data processing use, quality control, training and management; recommendations to correct the issues; and a proposed telemetry network including DCPs and other telemetry systems. La Télévision à la Chambre des communes

par J.R. Robertson. Ottawa : Bibliothèque du Parlement, Service de recherche, 1990. 15 p. (Etude générale ; BP-242F) L'éd. anglaise (*Television and the House of... on the same fiche*). ISBN 0-660-93266-0 MICROLOG 91-04883 1 fiche

La diffusion des délibérations de la Chambre des communes du Canada a débuté à l'automne de 1977 après des années d'étude et de débats. A ce moment-là, la Chambre des communes du Canada était un pionnier dans ce domaine puisque très peu de parlements permettaient alors aux caméras de filmer leurs délibérations sauf en des occasions spéciales. Aujourd'hui, les parlements de plus de 80 pays autorisent une certaine forme de radiodiffusion de leurs débats et cela est considéré aujourd'hui comme une partie nécessaire et essentielle de la Chambre des communes. Dans ce document, on examine, entre autres, le processus qui a permis à ce changement énorme de se produire sur une aussi courte période ainsi que les changements qu'il a provoqués à la Chambre des communes et dans la perception que les Canadiens ont de leurs représentants élus. On s'attarde finalement sur certains défis que réserve l'avenir. CA PA SC TE

Television and the House of Commons

by J.R. Robertson. Ottawa : Library of Parliament, Research Branch, 1990. 15 p. (Background paper ; BP-242E) *French ed. (La Télévision à la Chambre...)* on the same fiche. ISBN 0-660-13916-2
MICROLOG 91-04883 1 fiche

Broadcasting of the proceedings of the Canadian House of Commons began in the autumn of 1977 after years of study and debate. This paper reviews the changes televised proceedings has wrought in the House of Commons and how Canadians perceive their elected representatives. It also reviews some of the challenges that lie ahead.

Temperature and current measurements in St. Georges Bay, Nova Scotia, during 1979 and 1980

by K.F. Drinkwater. Dartmouth, N.S. : Bedford Institute of Oceanography ; Dept. of Fisheries and Oceans, Scotia-Fundy Region, Physical and Chemical Sciences Branch, 1991. iv, 44 p. : ill. Bibliogr. (Canadian data report of hydrography and ocean sciences ; no. 98) ISSN 0711-6721
MICROLOG 91-06355 1 fiche

During the 1970s, extensive field studies were undertaken to determine the abiotic and biotic factors influencing the growth and survival of fish larvae. The initial oceanographic studies concentrated upon residual circulation and a description of the current variability. In 1979, a thermistor chain and current meter array was deployed in St. Georges Bay for over 6 months to examine the dynamics of wind forcing. In 1980, a single thermistor chain was deployed for 4 months to provide additional temperature data as well as background information for biological studies conducted that year. This data report presents a graphical presentation of the moored temperature and current data collected in both 1979 and 1980, together with some statistical properties of the currents.

Terrain analysis : geotechnical and environmental considerations for the Skeena-Kitimat transmission line

by D. Maynard. Vancouver, B.C. : B.C. Hydro, Environmental Resources, 1990. iii, 30 p. : ill., maps. Bibliogr. Fold. maps not filmed. ISBN 0-7726-1284-6
MICROLOG 91-04904 1 fiche

This report presents the results of terrain analysis carried out to assess the environmental and geotechnical effects of locating, constructing, and maintaining a new 287 kV transmission line between existing substations near Terrace and Kitimat, BC. Terrain conditions and geologic hazards along a number of proposed route alternatives were examined at a reconnaissance level of reliability. The various alternate routes were examined by helicopter on November 4, 1989, then studied by stereoscopic examination of 1:20,000 aerial photographs. Features described include occurrence of wetlands and/or organic deposits, occurrence of fine-textured soil materials, topography, and presence of surface or near-surface bedrock. Hazardous geomorphic processes described include active and potential landsliding, active and potential surface erosion, flooding and snow avalanching. In addition, landslide or rockfall depositional areas and debris torrent runoff zones are shown.

Testing and evaluating a Conformation Determination System (CDS) as a tool for use in the genetic improvement of cattle : final report

by P.R. Greenough. Regina : Saskatchewan Agriculture Development Fund, 1990. 9 p. Bibliogr. ISSN 0829-9455
MICROLOG 91-01761 1 fiche

A body of opinion exists that feet and leg soundness is a problem with breeding bulls, leading to significant culling. This reduces the longevity of some breeding stock because of the early appearance of joint disease, and adversely affects foraging and breeding. It appears that conformation and laminitis are closely connected, but there is little understanding of either phenomena. This report describes the development of a system to calculate body and limb measurements, joint angles, and hoof measurements of cattle. The technique involves identifying certain anatomical points on the animal, taking photographs observing simple guidelines, and projecting the resulting 35mm slide onto a digitizing pad. Using the cursor and keyboard data, points are entered into the computer, calculations made and the resulting measurements stored for future use. The system is accurate to

within 1 percent under laboratory conditions. Problems arising with the posture of the animal and from operator inexperience were also identified and addressed.

Tests on short-term storage of Pacific halibut *Hippoglossus stenolepis* sperm and salinity tolerance of Pacific halibut and sablefish *Anoplopoma fimbria* sperm

by D.G. Bowden, E.P. Groot and J.O.T. Jensen. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1990. vi, 17 p. : ill. Bibliogr. (Canadian technical report of fisheries and aquatic sciences ; no. 1725) ISSN 0706-6457 MICROLOG 91-01194 1 fiche

Recently, there has been much interest in sablefish and Pacific halibut mariculture, although the fertilization process is still not fully understood. This study developed an experimental procedure suitable for the examination of fish sperm motility, obtained preliminary data on the short-term storage of Pacific halibut sperm, and determined the salinity tolerance for halibut sperm and sablefish sperm. Halibut were caught by longline during 1987 and 1988 in Queen Charlotte Sound, B.C. Sablefish were captured by Korean-style conical traps, during September 1988, near Ucluelet on the west coast of Vancouver Island. Milt was collected from spermating halibut and sablefish using routine techniques. Salinity tolerance was determined by mixing fresh milt in various sea water concentrations and then examining the duration of forward motility of spermatozoa.

A Theoretical study of the electrostatic coalescence of water-in-oil emulsions : final report

by S. Levine. Ottawa : Dept. of Energy, Mines and Resources, 1990. iv, 117 p. : ill. Bibliogr. CANMET contract: 79237-01-SQ. MICROLOG 91-00723 2 fiche

The co-production of water with oil in enhanced oil recovery or in thermal in-situ recovery of heavy oil and bitumen can create water-in-oil (W/O) emulsion droplets, an undesirable byproduct giving rise to problems of transport, corrosion and removal of water from the oil. W/O emulsions are not easily broken chemically, but can be coalesced using high voltage a.c. or d.c. or pulsating electric fields. This report investigates theoretically the electrostatic interaction of two charged W/O emulsion droplets at arbitrary separation and under the influence of an applied uniform electric field. The potential distribution in the oil medium surrounding the two spheres is first determined in terms of bipolar coordinates, then the electrostatic interaction is obtained in two stages. The additional energy of interaction due to charges on the droplet are determined by means of a standard charging process. The distortion of a spherical W/O droplet to a spheroid on application of an electric field is also determined.

Theoretical study of wind-generated surface ocean wave-current interactions

by D.T. Resio. Dartmouth, N.S. : Bedford Institute of Oceanography ; Dept. of Fisheries and Oceans, Scotia-Fundy Region, Physical and Chemical Sciences, 1990. iv, 29 p. Bibliogr. (Canadian contractor report of hydrography and ocean sciences ; no. 37) ISSN 0711-6748 MICROLOG 91-00359 1 fiche

In many areas within Canadian waters strong currents and high wave conditions coexist. In spite of this, essentially all design and planning considerations for offshore structures and operations are now based primarily on wave considerations, along with wave estimates based on the assumption of no significant currents being present. This report presents the results of a preliminary analysis of the potential significance of wave-current interactions on prudent structure design and offshore operations. The report includes a review of wave-current interaction data sets; discussion of wave-current interaction mechanisms which are potentially significant to wave estimation; discussion of the probable magnitude of current-induced effects on waves in Canadian waters; estimates of potential wave-current interaction effects on offshore structure design and operations; and discussion of results and recommendations.

Thermal analysis of an irradiated fuel concrete integrated container under normal and fire accident conditions

by D. Taralis. Toronto : Ontario Hydro, Research Division, 1990. vi, 33 p. : ill. Bibliogr. (Report ; no. 89-242-K) MICROLOG 91-03175 1 fiche

This study describes the development of the special purpose three-dimensional heat transfer computer code for the thermal analysis of a Concrete Integrated Container (CIC) for the transportation of 10-year cooled fuel under normal conditions and hypothetical fire accident conditions. Results are given for: comparisons of theoretical predictions with existing half-scale CIC experimental results, and representative analytical results for full-scale CIC under normal and fire accident conditions.

Thermal comfort in passive solar buildings

Enermodal Engineering Ltd. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1990. iv, 74 p. : ill. Bibliogr. CANMET contract: M91-7-130-1990E. ISBN 0-662-18270-7 MICROLOG 91-01342 1 fiche

One of the barriers to increased adoption of passive solar heating is the concern that comfort may be compromised, since large expanses of windows can cause overheating on sunny days and radiant cooling on cold nights. This report assessed thermal comfort in passive solar buildings, developed a model to predict thermal comfort and validated the model against monitored data from a passive solar home. The report includes examples of how the model can be used to develop guidelines for thermal comfort. The model was based on the ENERPASS computer program modified to predict hourly values of Fanger's predicted mean vote. Monitoring was done for 5 days in March 1989.

Thermal ice pressures on dams : a literature study

by P.J. Hassan. Toronto : Ontario Hydro, Research Division, 1991. ii, 79 p. : ill. Bibliogr. (Report ; no. 90-293-K) MICROLOG 91-07162 1 fiche

Rising temperatures can cause the thermal expansion of an ice sheet covering a reservoir and exert significant pressure on hydraulic structures such as dams. Since the design method currently used for dams fails to consider the complexity of the problem, empirical and theoretical methods were developed to predict ice pressure. This report looks at some of the methods of predicting ice pressures and applies them to dams in the Sudbury, North Bay, and Muskoka areas.

Thermal performance and delivery capability of a 175 L hybrid polymer steel construction electric water heater

by J.A. Riddersma. Toronto : Ontario Hydro, Research Division, 1991. 8 p. : ill. (Report no. 91-15-K) MICROLOG 91-07178 1 fiche

Standard electric water heaters have a storage tank made of steel with the inner surface covered by a glass lining which is often imperfect, allowing water to rust the tank. A US manufacturer has developed a process by which a non-metallic composite is placed inside the solid steel containment capsule and cast to form a seamless tank within a tank. The manufacturer claims that because the inner tank contains no flaws, and no bare metal is

exposed, the need for an anode rod is also eliminated. This report presents the results of testing a 175 L model of the tank.
EN ON PR SC

Thermal performance and delivery capability of a 220 L hybrid polymer steel construction electric water heater

by J.A. Riddersma. Toronto : Ontario Hydro, Research Division, 1991. 8 p. : ill. (Report ; no. 91-16-K)
MICROLOG 91-07124 1 fiche

Standard electric water heaters have a storage tank made of steel with an inner glass lining which is often imperfect, allowing water to reach and rust the metal. A U.S. manufacturer has developed a process by which a non-metallic composite is cast inside the tank to form a seamless tank within a tank. Since no bare metal is exposed, the tank would not need an anode rod. The tank has a top inlet (dip tube) for the cold water. This report presents the results of testing a 220 L model of the U.S. tank using the standards given in CSA Standard C191. Tank temperatures, water flow rates, and electrical energy consumption were recorded, verified, and stored for analysis.

Thermal performance and delivery capability of a 310 L electric water heater for dairy use

by J.A. Riddersma. Toronto : Ontario Hydro, Research Division, 1991. 7 p. : ill. (Report ; no. 91-17-K)
MICROLOG 91-07176 1 fiche

Standard residential electric water heaters normally operate at or below 60C, which is too low for dairy farms because of the high temperature required for cleaning milk handling equipment. A US manufacturer, has produced a tank which is designed for the higher temperature conditions required by dairies. The tank has a top inlet (dip tube) for the cold water, and a coiled inlet diffuser which creates turbulence inside the tank, and is claimed to keep sediment from settling at the bottom. This report presents the result of testing a 310 L model of the tank.

Thermal properties of concretes incorporating fly ash or silica fume

by V. Sivasundaram. Ottawa : Canada Centre for Mineral and Energy Technology, Mineral Sciences Laboratories, 1990. iv, 44 p. : ill. Bibliogr. (Report ; MSL 90-035(TR))
MICROLOG 91-01033 1 fiche

The thermal properties of concrete are given prime consideration in the design of structures such as dams, where thermal and volume stability are important, and in lightweight concrete structures, where the insulating value of the concrete is a major factor. This paper reports on an investigation made to determine the thermal properties of concretes incorporating supplementary cementing materials such as fly ash or silica fume. Thermal properties studied include thermal conductivity, thermal diffusivity, and specific heat.

Thoron progeny to radon progeny relationships at Denison Mines Limited

by J. Bigu. Ottawa : Canada Centre for Mineral and Energy Technology, Mining Research Laboratories, 1990. iii, 26 p. : ill. Bibliogr. (Report ; MRL 90-098(TR))
MICROLOG 91-00382 1 fiche

Radon-222 and 220Rn progeny are found in some Canadian underground uranium mines. Because both contribute to the worker's total radiation exposure, their experimental determinations are important. The relationship between 220Rn progeny Working Level, WL(Tn), and 222Rn progeny Working Level, WL(Rn), was determined at Denison Mines Ltd. Experimental measurements extended over 1989-90 and consisted of several hundred measurements of each WL(Tn) and WL(Rn). The data were analyzed by standard linear and power-function regression analysis. The relationships obtained permit the calculation of WL(Tn) from experimental values of WL(Rn).

The Three year stability of six different rights-of-way plant communities in the vicinity of Essa TS and their interference potential on ash, poplar, spruce and pine transplants

by D. Brown. Toronto : Ontario Hydro, Research Division, 1990. iii, 15 p. : ill. Bibliogr. (Report ; no. 90-166-K)
MICROLOG 91-02130 1 fiche

The recent initiative to reduce the use of herbicides in the rights-of-way vegetation management program has placed increased emphasis on the need to develop a vegetation cover which exerts a form of biological control. A study was initiated in 1987 to determine if the various plant communities on the rights-of-way differed in their interference potentials. Seedlings of green ash were transplanted into each of 6 different communities. Each

treatment (community) quadrant was paired with a control, which was kept free of competing vegetation by covering the ground with a polyethylene sheet. This non-vegetated control was used to standardize the growth and survival of the trees in the treatment quadrants, thus removing site differences due to edaphic, climatic and disturbance factors. The study was expanded in 1989 by including transplants of Carolina poplar, white spruce and red pine. This study reports on the changes in these communities between 1987 and 1989.

To develop geopolymer formulations and to determine their mechanical and durability properties for capping of pyritic slate outcrops at Halifax airport : final report

D. Comrie Consulting Ltd. Mississauga, Ont. : The Corporation, 1990. 115 p. : ill. Bibliogr. CANMET contract: 89171-01-SQ. MICROLOG 91-00376 2 fiche

This report summarizes the results of a program to design and test formulations of geopolymeric concretes for use in site rehabilitation work at the Halifax airport. Acid drainage from outcroppings of pyritic slate at the Halifax airport resulting in large scale fish kills and other environmental damage was documented since 1960. An examination of the use of various admixtures, including fly ash, silica fume, and conventional aggregates, for incorporation into a cement, began in December 1988. Following the initial examinations, compressive stress testing of selected mixes was undertaken. The results of this work were then selected for application testing using a modified shotcreting apparatus. Freeze-thaw prisms and conventional cylinders for compressive stress testing were also prepared and submitted for physical testing using ASTM 666 test procedures. Concurrent with the physical testing of the submitted material, testing continued of formulations of geopolymeric cements to improve reactivity of the material.

MICROLOG 91-01730 1 fiche

Examines Toronto's early settlement along the shores of Lake Ontario during the first half of the nineteenth century so as to define the nature of the early relationships between the city and its waterfront. These relationships are evaluated and compared to conditions which evolved along the central waterfront, as the process of lakefill continued into the twentieth century, in an effort to understand how the successive filling-in of the lake has altered these early relationships between the city and its waterfront. It concludes by identifying the challenges which must be met if it is to be ensured that the necessary physical linkages are established and that new and fundamentally different relationships between the city and its waterfront evolve.

Le Touladi, une espèce en difficulté : plan tactique

Québec : Gouvernement du Québec, Ministère de loisir, de la chasse et de la pêche, Direction de la gestion des espèces et des habitats, 1990. vii, 41 p. Bibliogr.
MICROLOG 91-04429 1 fiche

Le plan tactique présente les aspects importants de la biologie du touladi, de même qu'une évaluation de l'offre totale et de la demande pour cette espèce. Il examine

particulièrement la biologie de l'espèce; l'offre; l'utilisation et l'impact économique; les outils de gestion de la pêche sportive; les problèmes principaux; le plan d'action; et, le calendrier détaillé des interventions de type réglementaire. L'impact socio-économique de son utilisation et la gestion passée du touladi complètent le bilan.

Tour d'horizon, 1991-92 : guide de l'éducation postsecondaire en Ontario

Toronto : Ministère des collèges et universités, 1990. 55 p. ISSN 0381-3797
MICROLOG 91-00821 1 fiche

De nos jours, les progrès rapides réalisés en technologie, en sciences et en communications soulignent davantage l'importance de l'apprentissage tout au long de la vie. Les collèges, universités et autres établissements d'enseignement postsecondaire de l'Ontario s'adaptent à ces changements en offrant une vaste gamme de programmes conçus pour inculquer aux diplômés de demain les compétences et les connaissances nécessaires pour relever les défis de l'avenir. Ce document décrit également les programmes d'aide financière mis à la disposition des jeunes désireux de poursuivre leurs études postsecondaires.

Toward a housing needs assessment for the City of Toronto

Toronto : Toronto Planning and Development Dept., 1990. iv, 65 p. : ill. Bibliogr. On cover: Cityplan '91, 15. CSJ 89181.225.
MICROLOG 91-02283 1 fiche

This report provides a context for which the rationale for developing social housing targets in the City of Toronto in the first instance, may be set. They include a brief history of the City's role in the area of social housing and a description of the obligations for municipalities to prepare housing statements in the province. It also includes a critique of a number of housing statements prepared for other local area municipalities. It examines the relationship between housing affordability and housing need, and presents a description of the dimensions of the housing affordability problem in the City of Toronto. In addition, it sets out a model for the development of social housing targets and develops the targets which may be used in the 1991 Official Plan of the City of Toronto. Finally, it outlines the limitations to the approach taken in assessing housing need and developing the social housing targets.

Toward an Old Growth Strategy : interim progress report, December, 1990

Salasan Associates Inc. Victoria : Ministry of Forests, 1991. 16 p. At head of title: *Towards an Old Growth Strategy.*
MICROLOG 91-02234 1 fiche

The Old Growth Strategy Project began with a public workshop held in November 1989 to discuss old growth issues. Recommendations from the workshop led to the establishment of a formal project in April 1990. This project was divided into 5 working teams which were to develop strategies for improving the state of ecological research and inventory; the articulation and measurement of old growth values; the review of relevant legislation, regulations and policy; the examination of old growth conserving forest management practices; and the conservation of old growth stands representative of the ecological zones of the province. This interim report describes the project's organization and public involvement; the problem of short term deferral of areas; a working definition of old growth; areas of emerging consensus; overall goals, objectives, planned results and progress to date.

Towards a silviculture strategy : a discussion paper on growing and managing British Columbia's future wood supply

Victoria : British Columbia Forest Service, Silviculture Branch, 1990. 12 p. : ill. MICROLOG 91-02343 1 fiche

A provincial goal to double the provincial maximum mean annual increment (MAI) by 2020 has been proposed, moving the annual MAI from 2.5 cu m/ha/yr to 5.0 cu m/ha/yr. To achieve this goal, it is necessary to develop strategic goals for growing and managing B.C.'s future wood supply. This discussion paper deals with the strategic planning required for effectively implementing forest management programs, the factors involved in developing forest-level goals, and the planning processes and tools required to develop these goals. The paper addresses the planning framework necessary and describes forest-estate goals, and the funding necessary to achieve these goals, as well as both the technical principles and analytical tools to be used.

This paper concludes by providing a strategic vision for the GVRD and its municipalities in terms of RTC policy. BC MU PL SC ST

Toxic chemical survey of municipal drinking water sources in the Atlantic region, 1985-88 : evaluation of quality control data for organic parameters

by D.A. Léger. Moncton, N.B. : Environment Canada, Inland Waters Directorate, Water Quality Branch, 1990. vi, 73 p. Bibliogr. MICROLOG 91-04414 1 fiche

This report provides an evaluation of the quality control data that was produced for organic toxic chemicals during the Atlantic Region Federal-Provincial Toxic Chemical

Survey of Municipal Drinking Water Sources'. The data was examined by year, province, and water types (distilled versus ground versus surface). The samples were analyzed for the following groups of chemicals: organochlorines, chlorobenzenes, polynuclear aromatic hydrocarbons, polychlorinated biphenyls, organophosphorous pesticides, chlorinated phenols, and carbamates. Trends were assessed and problem areas were discussed. CA EV NR SC

Toxic chemicals in the Great Lakes and associated effects : synopsis

Toronto : Environment Canada ; Burlington, Ont. : Fisheries and Oceans Canada ; Ottawa : Health and Welfare Canada, 1991. ix, 51 p. : ill., maps. French ed. (*Les Produits chimiques toxiques...*) : 91-04507/1. ISBN 0-662-18316-9. MICROLOG 91-04504 1 fiche

This report summarizes what is currently known about the levels and the effects of toxic chemicals in the water, sediments, fish, wildlife and human residents of the Great Lakes basin. A list of critical pollutants is included. Particular attention is paid to the effects of toxic contaminants on double-crested cormorants, bald eagles, herring gulls, common terns, mink, common snapping turtles, and lake trout. • CA EV ON SC

Toxic chemicals in the Great Lakes and associated effects, vol. I : contaminant levels and trends

Toronto : Environment Canada ; Burlington, Ont. : Dept. of Fisheries and Oceans ; Ottawa : Health and Welfare Canada, 1991. vii, 488 p. : ill., maps. Bibliogr. French ed. (*Les Produits chimiques toxiques...I...*) : 91-05777/6. ISBN 0-662-18317-7. MICROLOG 91-05737 6 fiche

This volume 1 of 2 summarizes data on the concentrations of toxic chemicals in Great Lakes water and sediments, invertebrates and fish, wildlife, and humans. It includes the sources, pathways and fate of the chemicals in the system; a discussion of the main chemicals of concern; a history of Great Lakes contamination; and a description of water and sediment sampling and analysis. Data for each lake and connecting channel is presented in sequence from Lake Superior to the international section of the St. Lawrence River. The main chemicals discussed are lead, mercury, cadmium, arsenic, DDT and metabolites, dieldrin, alpha-BHC, lindane, mirex, toxaphene, benzo(a)pyrene, dioxins and furans, HCB, HCBd and PCBs. CA EV NR ON SC

Toxic chemicals in the Great Lakes and associated effects, vol. II : effects

Toronto : Environment Canada ; Burlington, Ont. : Dept. of Fisheries and Oceans ; Ottawa : Health and Welfare Canada, 1991. vii, 261 p. : ill., maps. Bibliogr. French ed. (*Les Produits chimiques toxiques...II...*) : 91-05762/4. ISBN 0-662-18317-7. MICROLOG 91-05738 3 fiche

This volume 2 of 2 reviews what is known about the effects of persistent toxic chemicals on fish, wildlife and people and presents a concluding synthesis which interprets the significance of the levels and effects information in the two volumes. It also includes a brief history of the Great Lakes fishery. CA EV NR ON SC

Toxic emissions and air quality in the Lake Huron-Lake Erie Corridor

Ontario. Huron Erie Corridor Committee. Toronto : Environment Ontario, Air Resources Branch, Huron Erie Corridor Committee, 1990. i, 63 p. : ill., maps. Bibliogr. ISBN 0-7729-7588-4. MICROLOG 91-02540 1 fiche

Report of a preliminary analysis of atmospheric emissions, air quality and soil and vegetation contamination in the Ontario-Michigan border area in southwestern Ontario, extending from the southern end of Lake Huron, along the St. Clair River, through Lake St. Clair, and along the Detroit River to Lake Erie. The analysis evaluates the conditions on the Ontario side of this Corridor, comparing it with that in other areas in Ontario and eastern North America. Some meteorological analyses are applied to diurnal patterns of reduced sulphur concentrations to identify probable sources of these compounds. Ambient air concentration data are examined for such contaminants as SO₂, TSP and trace metals. These are then compared to those among major Ontario cities, including Windsor and Metropolitan Toronto. EV ON PR SC

Toxicity and environmental impact assessment tests based on the activity of indigenous bacteria

by K. Lee...et al. Dartmouth, N.S. : Environment Canada, Conservation and Protection, Environmental Protection, Marine Environment Branch, 1990. iv, 138 p. : ill. (Ocean dumping report ; 4) ISBN 0-662-17627-8 MICROLOG 91-01152 2 fiche

Microorganisms in marine sediment mediate nutrient regeneration, trace metal transformation and organic matter degradation. This report describes a range of experimental techniques developed, using single indicator species, to evaluate the effects of contaminants on bacteria in sediment. There is, however, no evidence supporting the premise that the environmental impact of contaminants can be known from tests based on the toxicological response of single species. To provide a more sensitive, economical and rapid means of assessing the potential toxicity of substances, new procedures were developed to measure the activity of indigenous assemblages of microorganisms with radiolabelled and fluorogenic substrates. This report was produced as part of the Watershed Inventory Project under the Canada-Prince Edward Island Water Management Agreement. The research was initiated to gain a better understanding of the activities which may impact on the quality and quantity of surface waters drained by the Winter, Black and Trout Rivers into Tracadie Bay. Topics covered include: general characteristics of the Tracadie Bay watershed complex, agricultural operations, fish and wildlife resources, recreational activities, fisheries operations, industrial operations, alterations of natural feature of waterways, wetlands, and additional activities affecting the watershed. Tracing the movement of fine-grained sediment in aquatic systems : a literature review

by J.P. Coakley and B.F.N. Long. Burlington, Ont. : Environment Canada, Inland Waters Directorate, National Water Research Institute, Canada Centre for Inland Waters, 1990. v, 21 p. Bibliogr. (Scientific series ; no. 174) French ed. (Etude à l'aide de...) on the same fiche. ISBN 0-662-18040-2 MICROLOG 91-00677 1 fiche

A comprehensive literature search of major computerized databases was made on the topic of fine-grained sediment movement, and 103 references were located. This report summarizes those sources and evaluates the various techniques for use in studies of contaminated sediment dynamics in the Great

Lakes-St. Lawrence aquatic system. CA EV NR SC

Tracking performance requirements for rotorcraft instrument approaches to reduced minima, phase 1 : preliminary study

by S.W. Baillie...et al. Ottawa : National Research Council Canada, Institute for Aerospace Research, 1991. iv, 40 p. : ill. Bibliogr. (Aeronautical note ; IAR-AN-70) MICROLOG 91-04004 1 fiche (Available on fiche only)

The ability to track approach guidance (position and speed) to a low decision height (50 feet) when performing a steep instrument approach (6-9 degrees) in a rotorcraft clearly has a profound effect on the success of the approach. This report describes a preliminary attempt to define standards for such approaches and includes a systematic data base upon which such standards can be based. This data base was generated in a flight experiment in which qualified rotorcraft certification test pilots evaluated the suitability of arriving at the decision height with various combinations of approach tracking error. The experiment was performed on the NRC's Bell 205 airborne simulator. CA PS SC TR

Trade liberalization and the political economy of culture : an international perspective on FTA

by G. Carr. Orono, ME : University of Maine, Canadian-American Center, 1991. 54 p. Bibliogr. (Canadian-American public policy ; no. 6) ISSN 1047-1073 ISBN 0-9625055-3-6 MICROLOG 91-05851 1 fiche (Available on fiche only)

This paper addresses three issues which are fundamental to a reformulation of Canada's position on culture and FTA. First, it explores the nature and extent of American government involvement in culture in relation to the strategy of exemptionalism pursued by Canada in negotiating free trade. Second, it examines the relationship between the United States' position on culture in FTA and the larger context of American foreign and commercial policies. Finally, it considers how culture is treated in various international trade agreements involving countries of disparate size, wealth, and power. • CA CI CO EX

Trademarks on base-metal tableware : late 18th century to circa 1900 (including marks on Britannia metal, iron, steel, copper alloys and silver-plated goods)

by E. Woodhead. Ottawa : Environment Canada, Parks Service, National Historic Sites, 1991. xii, 331 p. : ill. Bibliogr. (Studies in archaeology, architecture and history) ISSN 0821-1027 ISBN 0-660-13629-5 MICROLOG 91-06822 4 fiche

Over the past decade the Metal Unit of the Material Culture Section, Archaeology Research Division, Canadian Parks Service, has maintained a reference file identifying marks found on metal artifacts. This document is a selection of marks on file that relate primarily to tableware items, from the late 18th century to about 1900. CA CU SC

Traditional medicine in Zaire : present and potential contribution to the health services

Ottawa : International Development Research Centre, 1990. 39 p. : ill. (Manuscript report ; 272e) ISBN 0-88936-222-X MICROLOG 91-01418 1 fiche (Available on fiche only)

For the past 3 years, the Healers' Medicine Centre of the Institute of Scientific Research

has been studying the healers of Zaire. This report covers both the real knowledge and the present situation of traditional medicine in Zaire and suggestions for reorienting the health policy with respect to healers. The report is based on studies of the patients and practitioners of traditional medicine in Zaire, portraying the different trends in the rural sector, towns, and the capital city. Different categories of healers were studied in proportion to the importance accorded them by the local people in each area. Criteria for classifying healers and examples of how the classification worked are also included.

Traffic evaluation of alternate Trans Canada Highway routings

prepared for New Brunswick Dept. of Transportation ; [by] Fiander-Good Associates Ltd. Fredericton : The Corporation, 1990. 9 p. : maps.
MICROLOG 91-01954 1 fiche

A number of submissions opposing the current routing plans for the Trans Canada Highway upgrading, and suggesting alternate routes, were received. This study was completed to more fully assess various routing alternatives and to address the concerns of those opposing the current proposed routing plans. To evaluate the effectiveness of alternate routings on the existing Trans Canada highway, it was first necessary to estimate the base year 1990 traffic volumes, which would divert from the existing route. This was followed by a projection of the base year traffic volumes to the design year 2008. These volumes were then assigned to the alternate routes and a level of service and capacity analysis completed based on the traffic volumes remaining and the volumes assigned to the alternate routes. Three major data bases were used to estimate the traffic volumes which would divert and two separate data sources were reviewed. Order-of-magnitude costs were then developed for each alternate route, including connecting links and upgrading requirements of the existing highway.

The Training and certification of Alberta's skilled work force : supplement to the discussion paper

Edmonton : Alberta Career Development and Employment, 1990. 21 p.
MICROLOG 91-00327 1 fiche

In June 1990, a discussion paper entitled 'The Training and Certification of Alberta's Skilled Work Force' was released for public consideration and to elicit comment on proposed legislation governing apprenticeship and occupational training. This paper is a supplement to the discussion paper. It describes in further detail the proposed transition phase contained in the proposed legislation. It also sets out possible criteria and describes possible processes for the designation or redesignation of trades and occupations and for the making of exemptions under the proposed legislation.

Training needs assessment for office automation : concepts and models

by M. Frenette. Laval, Que. : Canadian Workplace Automation Research Centre, Organizational Research Directorate, 1989. 21 p. : ill. Bibliogr. French ed. (L'Analyse de besoins de formation...) : 91-01997/1. ISBN 0-662-18167-0
MICROLOG 91-02002 1 fiche

This research was prompted by a twofold observation: first, needs assessment is today attracting tremendous interest and more and more managers are attaching importance to it, at least in principle. As well, there is currently much confusion regarding the term 'needs assessment.' What does it mean exactly and, more importantly, how can an effective needs assessment be carried out? This document describes the basic concepts related to needs assessment and develops the broad outlines of a model to analyze office automation training needs. It also discusses some key concepts and presents several models of needs assessment. Finally, it sketches a model specifically applicable to training in office automation.

Traitement du sarcome de Kaposi associé à l'infection due au virus de l'immunodéficience humaine

par F.A. Shepherd. Ottawa : Santé et bien-être social Canada, 1991. 21, 20 p. : ill. Bilingue (Management of Kaposi's sarcoma...). ISBN

0-662-58141-5
MICROLOG 91-06329 1 fiche

Dans sa forme classique, le sarcome était une affection maligne peu fréquente qui touchait principalement les hommes âgés de souche méditerranéenne ou juive originaires d'Europe de l'Est. Cependant, le sarcome de Kaposi est également associé à l'immunodéficience congénitale et acquise. La manifestation inhabituelle du sarcome de Kaposi chez de jeunes homosexuels de la Californie et de New York a mené à l'identification du syndrome d'immunodéficience acquise (sida), en 1981. Ce rapport décrit brièvement l'étiologie et le diagnostic du sarcome de Kaposi. Il porte aussi sur les variations du tableau clinique de la maladie et sur les traitements universels des diverses formes de la maladie.

Transit equilibrium assignment : a model and solution algorithm

by J.H. Wu, M. Florian and P. Marcotte. Montreal : Université de Montréal, Centre de recherche sur les transports ; Département

d'informatique et de recherche opérationnelle, 1991. ii, 31 p. Bibliogr. (Publication ; no. 721) (Publication ; no. 756)
MICROLOG 91-02547 1 fiche

This paper proposes a model for the transit equilibrium assignment problem and develops two algorithms for its solution. The behaviour of transit users is modelled by using the concept of hyperpaths (strategies). The model is stated on a network which is obtained from the physical transit network by a transformation which makes explicit the transit generalized cost on walk, wait, in-vehicle and transfer/alight arcs. The waiting cost is a function of both the inter-arrival time of transit vehicles and congestion effect due to queues at stops. The problem is stated and formulated as a variational inequality in the space of hyperpaths and then solved iteratively by the linearized Jacobi and the projection methods. The implementation of the algorithms and computational experiments are presented as well.

Transport et utilisation du sol : approche méthodologique du système intra-urbain

par J.-P. Rodrigue. Montréal : Université de Montréal, Centre de recherche sur les transports, 1991. 17 p. : ill. Bibliogr. (Publication ; no. 784)
MICROLOG 91-05306 1 fiche

Cet article présente un nouveau modèle dans le domaine des transports et de l'utilisation du sol. Ce modèle vise à vérifier l'hypothèse selon laquelle un système intra-urbain est un ensemble complexe de liens entre les éléments qui le compose. Une nouvelle méthodologie en géographie des transports basée sur un modèle adaptable à n'importe quelle ville y est développée. Cet article présente d'abord les mécanismes des changements d'utilisation du sol. Il s'agit d'identifier les liens probants entre les concepts qui identifient l'utilisation du sol. Par la suite la logique mathématique du modèle y est abordée. Finalement, on se penche sur la représentation mathématique des liens entre les concepts qui identifient l'utilisation du sol.

Travaux en cours dans le domaine des sciences géologiques au Canada, de mai 1987 à avril 1988

préparé par Thomas E. Bolton. Ottawa : Énergie, mines et ressources Canada, Commission géologique du Canada, 1988. 101 p. (Étude ; 88-5) *Bilingue* (Current research in the geological...). Publié pour le compte du Conseil géoscientifique canadien. CSI 22231.003. ISSN 0068-7650 ISBN 0-660-54653-1 MICROLOG 91-04749 2 fiche

Les projets de recherche énumérés sont exécutés surtout par des ministères fédéraux et provinciaux et par des universités. Un aperçu de l'activité de recherche scientifique au Canada pour la période visée dans le domaine de la géologie et des sciences connexes est cependant fourni. Les projets sont groupés sous des titres généraux s'appliquant à la majorité des disciplines que comprennent la géologie et les sciences connexes. Y inclus sont la cartographie à grande ou à petite échelle, la géochimie, la géochronologie, les mathématiques de la terre, la géophysique, la glaciologie, l'océanographie, la minéralogie-cristallographie, la paléontologie, la pétrologie, la télédétection et la sédimentologie. Une liste complète des organismes qui ont contribué à l'enquête a été dressée. Finalement, un répertoire alphabétique donne les noms de tous

les enquêteurs et les numéros de référence des projets.

Travel survey summary for the Greater Toronto Area

Joint Program in Transportation (Toronto, Ont.). Data Management Group. Toronto : Toronto Area Transportation Planning Data Collection Steering Committee, 1989. iv, 127 p. : maps. (Transportation tomorrow survey ; 5)
CSI 99234.201.
MICROLOG 91-06580 3 fiche

The Transportation Tomorrow Survey represents the demographic characteristics of approximately 1.5 million households, and the travel characteristics of 8.8 million daily trips made in the Greater Toronto Area. The purpose of this report is to summarize the data according to commonly used geographic boundaries. The summary tables are in three levels of detail, namely, the entire Greater Toronto Area, each of the 6 Regional Municipalities, and their respective Planning Districts. The report covers both socio-economic and travel characteristics. In addition to presenting the magnitude of the trips coming into and leaving an area, the summary tables and figures also describe travel characteristics such as travel purpose, start time, travel distance, and travel mode choices.

Traveling salesman problem : an overview of exact and approximate algorithms

by G. Laporte. Montreal : Université de Montréal, Centre de recherche sur les transports, 1991. ii, 49 p. : ill. Bibliogr. (Publication ; no. 744)
MICROLOG 91-02550 1 fiche

The Travelling Salesman Problem (TSP) is one of the most widely studied combinatorial optimization problems. This survey paper presents an integrated overview of some of the most exact and approximate algorithms so far developed for the TSP at a level appropriate for a first graduate course in combinatorial optimization. The paper provides a definition of the problem, applications, a complexity analysis, and exact and heuristic algorithms.

Trends and traits of Canadian joint ventures

by J.M. Geringer. Ottawa : Investment Canada, 1990. 49 p. Bibliogr. (Working paper ; no. 1990-IV) CSI 22289.201.
MICROLOG 91-04448 1 fiche

This document examines the overall frequency of joint venture activity, including a comparison of Canadian versus U.S. experience. It also examines Canadian experience on the basis of specific variables, including the nationality of the parent firms; the legal nationality, headquarters province, industry classification and organizational classification of the joint ventures. It provides additional insight into factors influencing the performance of Canadian joint ventures during the 1980s by providing a multivariate statistical analysis of the relationship of four variables with venture survival. It concludes by providing a brief discussion of the key conclusions which can be drawn from the study's results.

Trial sections with polymer-modified asphalts on Highway 400

by P.E. Joseph and G.J.A. Kennepohl. Toronto : Ministry of Transportation, Research and Development Branch, 1991. iii, 35 p. : ill. Bibliogr. MICROLOG 91-05610 1 fiche

In July 1990, trial sections to compare standard and modified HL 1 mixes for effectiveness to resist rutting and low temperature cracking were built on Highway 400 near Innisfil. In addition to Premium

asphalt from Petro-Canada, the additives used included Novophalt, Neoprene, Vestoplast, and tire rubber (no. 80 mesh) which had not previously been evaluated. The selected test site represented a typical highway section in a colder environment experiencing heavy traffic-induced rutting. The mix design for the trial sections was modified to yield results in 2-5 years. This report summarizes the experience gained in the construction of the trial sections and the handling of the additives used in each section, and presents the proposed laboratory testing and field evaluation techniques for assessing the performance of individual test sections.

A Two-commodity flow formulation for the traveling salesman and the makespan problems with time windows

by A. Langevin...et al. Montreal : Université Montréal, Centre de recherche sur les transports, 1990. 15 p. Bibliogr. (Publication ; no. 732) (Cahiers du GERAD G-90-44)
MICROLOG 91-00960 1 fiche

This paper presents a new two-commodity formulation for the traveling salesman problem which is particularly well-suited to handle time window constraints; the resource used is then the time. It can also be extended to the makespan problem. Each commodity corresponds to a resource that is either distributed or picked-up along the tour of all nodes. Implementation issues are discussed and numerical experiments realized for problems of up to 40 nodes.

Two-way ASCII file transfers between HP and IBM compatible microcomputers

Edmonton : Forestry Canada, Northwest Region Northern Forestry Centre, 1990. 8 p. Bibliogr. (Forest management note ; no. 4) ISSN 0714-1181 ISBN 0-662-17904-8
MICROLOG 91-03944 1 fiche

among the first microcomputers used in forestry research in the 1970s were those built by Hewlett Packard. The proliferation of IBM or IBM compatible microcomputers with PC/MS-DOS and related analysis software has made it highly desirable to transfer programs and particularly data files between HP and IBM computers for subsequent data processing. However, this has been difficult. This paper presents an overview of the computer programs and procedures developed for capture and transfer of ASCII files between an HP series 200 microcomputer and a PC/MS-DOS based IBM or IBM compatible.

U.S. hub-and-spoke bilaterals and the multilateral trading system

by R.J. Wonnacott. Toronto : C.D. Howe Institute, 1990. 24 p. : ill. Bibliogr. (Commentary ; no. 23) *At head of title: Trade.* ISSN 0824-8001 ISBN 0-88806-268-0
MICROLOG 91-00168 1 fiche

On January 1, 1989, the U.S. entered into a free trade agreement with Canada. By 1993 it may conclude a similar agreement with Mexico and perhaps other countries in the Americas. This document describes two broad possible frameworks for this emerging free trade system: a plurilateral free trade agreement by plus 1 countries in which the U.S. and the

other n countries are trading freely; and a hub-and-spoke trading system in which the U.S., as the hub in a rimless wheel, has a bilateral spoke agreement with each of the other n countries. The purpose of the paper is to examine the economics of the two broad options in order to clarify where trade in the Americas is headed in this threshold period in which the risk of decision by default is high.

Underwater cod trap observations

St. John's : Dept. of Fisheries and Oceans, Fisheries and Habitat Management, Fisheries Development Division, 1990. 3 p. : ill. (Project summary ; no. 18)
MICROLOG 91-00066 1 fiche

Study to provide cod trap fishermen with an opportunity to improve the harvesting efficiency of their fishing gear by observing their traps in actual fishing conditions. In 1988, 16 cod traps operated by Newfoundland cod trap crews were observed in the set position using a remotely-operated vehicle equipped with an underwater video camera system. Operators of the traps identified such specific problems as the design of the trap, mooring systems, position of the trap relative to the seabed and the topography of the sites where cod traps were set, and took corrective measures. This report summarizes the equipment used and the results obtained.

Unit column flotation of Highland Valley copper and Falconbridge Strathcona ores : final report

Lakefield Research. Lakefield, Ont. : Lakefield Research, 1990. 3 v. : ill. Contents: Vol. 1 : Report -- vol. 2 : Testwork details for phase one -- vol. 3 : Testwork details for phase two. CANMET contract: 99131-01-SQ.
MICROLOG 91-05413 7 fiche

This project demonstrated the inherent advantages of unit column flotation by conducting parallel pilot scale tests to compare a representative conventional flotation circuit operating without unit column flotation to the same circuit incorporating a unit column flotation stage in the grinding circuit. The program was conducted in two phases, with each phase devoted to a complete evaluation of a single ore type. In phase one, a copper porphyry ore provided by Highland Valley Copper was evaluated. The second phase focused on a complex nickel-copper sulphide provided by the Strathcona Mill of Falconbridge.

United States lobster market consumer preference study

TAVEL Limited. Ottawa : Dept. of Fisheries and Oceans, Economic and Commercial Analysis Directorate, 1990. v, 74 p. : ill. (Economic and commercial analysis report ; no. 73) ISSN 0843-5626
MICROLOG 91-01734 1 fiche

The development and imposition of national minimum import size legislation for live lobsters (*Homarus americanus*, the main catch of the Atlantic Provinces and New England) by the U.S. focused attention on the need to evaluate the manner in which Canadian lobster products, particularly live lobster, was marketed in the U.S. This report defines the lobster market demand characteristics and the marketing and distribution systems from the consumer point of view, and briefly outlines potential areas for improvement. Participants from each part of the system were surveyed to gather information on their current activities as well as their opinions on the problems and constraints impeding expansion of sales of lobster. The U.S. market was surveyed regionally, established according to population and geographical area. The study was carried out in the first quarter of 1990 when there was considerable uncertainty in Canada and New England as to what would happen in the market during the year.

University-productive sector linkages : review of the state-of-the-art in Africa

prepared by M.N.B. Ayiku ; for the Association of African Universities. Ottawa : International Development Research Centre, 1990. xiii, 109 p. Bibliogr. (Manuscript report ; 280e)
MICROLOG 91-04062 2 fiche (Available on fiche only)

The economies of all African countries are plagued with serious problems, the most serious of which is the low level of industrial development. One solution to this problem is to extend the role of African universities beyond the traditional role of teaching and research. Specifically, there is the need to link some activities of the universities to the productive sector. This document reviews the current status of university linkages with the small and medium-scale industries sector, and makes recommendations to the Association of African Universities.

Upgrading of DART software to 386 computer specifications

by T. Chung and C.R. Carter. Toronto : Ministry of Transportation, Research and Development Branch, 1990. xii, 200 p. : ill. Bibliogr.
MICROLOG 91-02852 3 fiche

The existing DART prototype unit has proven to be of considerable value for the investigation of concrete bridge decks, especially those with a bituminous surface. However, the unit is based on 1982 technology and the data processing device is an XT-computer which has inadequate memory and takes several hours to process data from an average sized bridge deck. Attempts to privatize the DART technology and produce a commercial unit in the private sector have been unsuccessful. To take full advantage of this technology, it is necessary to upgrade the prototype unit. This report describes the 386-based computer used to replace the XT-based DART system, including the criteria used for selecting the new system, the data acquisition sub-system and system configuration design, the software algorithms, and test runs conducted on the Ninth Line bridge deck and the Bobcaygeon Bridge deck.

Upper and Lower Mann lakes area structure plan

Edmonton : Alberta Municipal Affairs, Planning Branch ; S.I. : County of St. Paul No. 19, 1990. 17 p.
MICROLOG 91-05717 1 fiche

The northeastern region of Alberta contains numerous lakes with high recreational and tourism potential, among which are the Upper and Lower Mann Lakes. These lakes are a major local and regional focal point for recreational and residential development. Since the county currently lacks definite municipal policies to guide lake use and development, a planning process was begun, the second step of which is the development of this area structure plan. This plan consists of lake planning goals and objectives and development policies and guidelines. Policies and provisions

deal with declining lake levels, aquatic plant growth, deteriorating water quality, overdevelopment, and declining sport fishery. Land use areas include residential, rural conservation, recreation, and environment protection areas.
AL CU PR

Upper and Lower Mann lakes area structure plan : background study, 1989

prepared for County of St. Paul ; by Planning Branch, Alberta Municipal Affairs. Edmonton : The Branch, 1989. 67 p. : ill., maps. Bibliogr. MICROLOG 91-05686 1 fiche

The northeastern region of Alberta contains numerous lakes with high recreational and tourism potential, among which are the Upper and Lower Mann lakes. These lakes are a major local and regional focal point for recreational and residential development. Since the county currently lacks definite municipal policies to guide lake use and development, a planning process was begun, the first element of which is this background study. The study presents a detailed inventory of the physical, biological and social characteristics of the lakes, and an evaluation and assessment of each characteristic to identify development limitations and capabilities. Data on boat and tourism use of the area is also included, as well as the results of a land use survey.

Use of Alpa-2 adrenoreceptor antagonists to relieve ruminal stasis in ruminal lactic acidosis (grain overload) : technical/final report

Regina : Saskatchewan Agriculture Development Fund, 1990. 9 p. ISSN 0829-9455 MICROLOG 91-05732 1 fiche

Ruminal lactic acidosis (grain overload) is a disease which readily develops in livestock such as dairy cows and feedlot cattle fed high energy feeds. The loss of forestomach motility which occurs early in the development of the disease is responsible for the severity and subsequent complications which develop. This report presents the results of a study on the use of adrenoreceptor antagonists in sheep suffering from ruminal lactic acidosis. Eight Suffolk cross-bred sheep were fed finely ground wheat and water, then were tested for forestomach motility and duodenal myoelectrical activity. Samples of ruminal contents and venous blood were collected and serum bicarbonate concentrations were calculated.

The Use of steam-exploded lignin in plywood adhesives

Iogen Corporation. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1989. xi, 111 p. : ill. Bibliogr. CANMET contract: M91-7-90-1990E. ISBN 0-662-17900-5
MICROLOG 91-01346 2 fiche

Since lignin is a major component of many plants, any large-scale biomass conversion industry necessitates a market for the lignin, both to increase the total product revenues and to avert a waste disposal problem. The lignin used in this work is the byproduct of wood-to-ethanol processing. This lignin was used as a substitute for phenol formaldehyde (PF) resin, the key component in plywood glue formulations. Lignin was tested in an unmodified (UM) form and after chemical reaction with formaldehyde, phenol and caustic. Both the UM and the chemically modified lignin were introduced into plywood glued by direct addition and by reaction with phenol and formaldehyde to synthesize lignin-PF resins. The performance of lignin in the glues was assessed by making plywood from Douglas fir, poplar, or white spruce veneer and using CSA plywood standard test procedures.

Use of tri-n-butyltins in the Atlantic Region, 1986-87

by K.M. Kieley. Ottawa : Environment Canada, Conservation and Protection, Environmental Protection, Atlantic Region, 1989. vi, 18 p. Bibliogr. (Surveillance report ; EPS-5-AR-89-2)
MICROLOG 91-02357 1 fiche

Tri-n-butyltins (TBTs) belong to the organotin class of chemicals which, in 1987, were included in the list of priority and candidate chemicals developed under the Environmental Contaminants Act. Concerns have recently focused on the potential for TBTs to cause adverse environmental impacts, particularly in the marine environment. Since aquaculture is a growth industry in the Atlantic provinces, it is an area of particular sensitivity. To better identify and assess potential problems arising from the use of these substances in the

region, a TBT use pattern assessment was initiated in October 1987, specifically to identify the significant uses of TBT in the region and to determine the quantities of TBT allocated to each of these uses. This report presents use patterns for 1986/7, methods of assessment, and current areas of use, including projected uses.

Used batteries and the environment : a study on the feasibility of their recovery

EUTROTECH Inc. Ottawa : Environment Canada, Environmental Protection Service, 1991. xvii, 88 p. : ill. Bibliogr. (Report ; EPS-4/CE/1) French ed. (Les Piles usées...) : 91-04492/2. ISBN 0-662-18677-X
MICROLOG 91-04398 2 fiche

Discharged batteries represent an important part of the heavy metals contained in household refuse, which then finds its way into the environment. This study is an overall evaluation of the disposal of used batteries in Canada, and provides some general guidelines for measures to minimize the associated environmental impacts. Estimates of the amount of mercury entering the Canadian environment are made, and data is provided that will allow federal authorities to decide if it is necessary to adopt measures to reduce mercury emissions from the disposal of used batteries. The study evaluates the feasibility of implementing a program for the collection and recovery of used batteries in Canada, while taking into account profitability. The study also reviewed the experiences of countries in Europe, Japan and the US that have battery disposal programs.

User statistics report, 1990

Alberta. Alberta Forestry, Lands and Wildlife. Recreation Section. Edmonton : The Section, 1991. 86 p. : ill. CSI 35250.001.
MICROLOG 91-06377 1 fiche

This report is a summary of the Alberta Forest Service (AFS) Recreation User Statistics for 1990. Its purpose is to provide statistical information on Forest Service Recreation Areas to assist in Recreation, Integrated-Resource, and Long-Range Program Planning. These statistics are compiled from auto accessible camping and Day Use Recreation Areas and show an estimated total use and a percent use. It also includes AFS groups camp summaries and multi-year trends.

User's guide to SHYDRO, version 3.2

ShawMont Newfoundland Limited. Ottawa : Energy, Mines and Resources Canada, Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1991. 81 p. : ill. Bibliogr. CANMET contract: 23440-0-9579-01-SZ. ISBN 0-662-18901-9
MICROLOG 91-06134 1 fiche

SHYDRO is a costing model for micro and small hydro developments based on a set of parametric costing equations originally developed for implementation of the DEC 20 mainframe (1984) and later adapted for IBM-PC and compatibles and marketed under the name SHYDRO. Version 3.1 was extended to incorporate a power canal with spillway and upstream control structure. Version 3.2 provides a further output data sheet to size the turbine and generator unit. This document describes the version 3.2 update, its input and output data, and how to run the program; provides a tutorial; and presents a print-out of a sample site.

Using information on relatives tested in both stations and herds to index performance-tested bulls

by J.W. Wilton and E.B. Burnside. Toronto : Ministry of Agriculture and Food, 1991. 2 p. (Research in transition)
MICROLOG 91-05988 1 fiche

The bull-test program has been in operation in Ontario for almost 20 years using the record of performance index to evaluate bulls by means of their average daily weight gain while they are on test. The index is calculated as a deviation from a breed-adjusted average for a contemporary group of animals weighted by the number of sons per sire. This study examined the problems which were felt to exist in the

present system in selection and pre-test carry-over from the animals' environment and developed and compared improved procedures for evaluating the growth rate of performance-tested bulls. This report describes the design and procedures of the study and summarizes the results.

Using the Blizzard-Wizard foam making system

by E. Stechishen. Chalk River, Ont. : Forestry Canada, Petawawa National Forestry Institute, 1991. 3 p. : ill. (PNFI technical reports ; 14)
ISSN 1180-2618 ISBN 0-662-18884-5
MICROLOG 91-05420 1 fiche

The Blizzard-Wizard Foam Eductor operates by diverting a small amount of water from the pump discharge side through a water thief to the venturi assembly in the mixing device, with the amount of foam concentrate drawn in, and the resulting mix ratio, regulated by the amount of water flow and the position of the metering valve. Trials using the Blizzard-Wizard system were conducted with a Wajax Mark 3 unit operating at full throttle, a Blizzard-Wizard Eductor, unlined 38 mm hose, and a Co-Son HF-32 aspirating nozzle. This note presents the results of those trials.

Utilisation des dispositifs de retenue d'enfant : données de l'étude de 1987

Ottawa : Transports Canada, Sécurité routière, 1987. 5, 5 p. L'éd. anglaise (*Child restraint use in...*) sur la même fiche. CSI 22407.001.
MICROLOG 91-05633 1 fiche

Une étude sur l'utilisation des dispositifs de retenue d'enfant, d'une durée de sept jours (du 26 octobre au 1er novembre), a été menée en 1987, parallèlement à l'étude nationale sur le port de la ceinture de sécurité. Des observateurs ont recueilli des données à 130 endroits au Canada, entre 7 heures et 17 heures du lundi au samedi et entre 13 heures et 17 heures le dimanche. On a ensuite recueilli les données pour quatre périodes d'une durée de deux heures à chaque emplacement. Ce bulletin indique l'utilisation de dispositifs de retenue appropriés, par province et par groupe d'âge; l'utilisation adéquate des dispositifs de retenue d'enfant, par province; et les résultats d'ensemble sur l'utilisation correcte des dispositifs de retenue d'enfant, par province et par groupe d'âge.

Utilization of canola chaff for feed : technical/final report

by J.A. Kernan. Saskatoon, Sask. : Saskatchewan Research Council ; Regina : Saskatchewan Agriculture Development Fund, 1987. 15 p. Bibliogr. (SRC publication ; no. R-814-5-E-86) ISBN 0829-9455
MICROLOG 91-01871 1 fiche

During the winter of 1984-85, a herd of pregnant cows stopped eating ammoniated Westar canola chaff after consuming about 3/4 of the pile. An attempt to repeat the situation was unsuccessful. This project, in an attempt to explain the situation, evaluated the nutritional value of ammoniated canola chaff; determined animal acceptability of the chaff and obtained the producer's observations on their performance; determined the reasons the animals stopped eating the chaff; determined the grain to chaff ratio of canola; and measured the extent of reaction at different places in the stack to measure the consistency of ammonia penetration and reaction with canola chaff. A 26 ton pile of Westar canola chaff was ammoniated and fed to 14 pregnant cows. Six samples were taken before ammoniation, shortly after the beginning of feeding, twice more during feeding, then finally after the end of feeding. All samples were analysed for moisture, CP, ash and in vitro digestibility and selected samples were analyzed for glucosinolates and sinapine.

A Variational inequality formulation of the dynamic traffic assignment problem

by O. Drissi-Kaitouni. Montreal : Université de Montréal, Centre de recherche sur les transports, 1990. 17 p. Bibliogr.
(Publication ; no. 735)
MICROLOG 91-00962 1 fiche

This paper is concerned with the modelling of the dynamic traffic assignment problem (DTAP) for analysing the day time varying flows of urban transportation networks. The paper proposes a dynamic traffic assignment model mainly based on the assumption that the time spent by a vehicle on a link may be decomposed into a fixed travel time and a waiting time. The fixed travel time is the free flow travel time, after which vehicles are put in the link exit queue, until there is room for them to proceed on their trip. The paper shows that this model leads to a network structure (a temporal expansion of the base network, including the queues), then formulates the DTAP as a network equilibrium problem over the expanded network. The mathematical formulation is achieved through a variational inequality where the variables are the path (or link) flows over the space-time expanded network.

The Vehicle routing problem with stochastic travel times -- Rev.

by G. Laporte, F.V. Louveaux and H. Mercure. Montreal : Université de Montréal, Centre de recherche sur les transports, 1990. 22 p. (Publication ; no. 659)
MICROLOG 91-01570 1 fiche

This paper considers vehicle routing problems (VRPs) with stochastic service and travel times, in which vehicles incur a penalty proportional to the duration of their route in excess of a preset constant. The 3 mathematical programming models presented are a chance constrained model, a 3-index simple recourse model and a 2-index recourse model. A general branch and cut algorithm for the 3 models is described and computational results indicate that moderate size problems can be solved to optimality.
PR PS QU SC TR

Vehicle routing problems via Tabu Search metaheuristic

by V.M. Poreza and P.M. França. Montreal : Université de Montréal, Centre de recherche sur les transports, 1991. ii, 8 p. : ill. Bibliogr. (Publication ; no. 747)
MICROLOG 91-02146 1 fiche

This paper addresses the application of the Tabu Search technique to the vehicle routing problem with time windows constraints. A simple adaptation of Tabu Search which uses only a short term memory strategy to overcome local optimality is developed and an initial solution is obtained by a sequential route construction algorithm. An arc interchange improving procedure is then applied, using as move attributes the deleted edges and the added edges. A sensitivity analysis is carried out to establish good choices for the number of edges considered tabu in a movement and for the lengths of the tabu lists. The method is tested on a large set of randomly generated routing problems and on a set of classical test problems.

Vehicle routing with stochastic demands and restricted failures

by M. Dror, G. Laporte and F.V. Louveaux. Montreal : Université de Montréal, Centre de recherche sur les transports, 1991. 18 p. Bibliogr. (Publication ; no. 773)
MICROLOG 91-05407 1 fiche

Examination of the vehicle routing problem (VRP) with stochastic customer demands using solution methodologies originally developed for the deterministic routing environment. Where the problem is formulated as a chance constrained model, a direct implementation of deterministic VRP algorithm is described. For the stochastic programming with recourse approach, the paper examines a number of problem scenarios with a limited number of potential route failures. In each case, the solution procedure is based on solving a number of Travelling Salesmen Problems. PR PS QU SC TR

Ventilation and airtightness in new detached Canadian housing

by T. Hamlin, J. Forman and M. Lubun. Ottawa : Canada Mortgage and Housing Corporation, 1990. 24 p. : ill. Bibliogr. CSI 22118.217. MICROLOG 91-04628 1 fiche

This study examines ventilation in new housing using data for indoor air quality, airtightness, and ventilation equipment performance. Analysis has also been performed on house depressurization due to existing ventilation and the energy consumption impact of providing mechanical ventilation. Data was used from a 1989 residential duct and chimney survey; a 1989 survey of the airtightness of new, detached, merchant builder houses; and a 1982-83 airtightness test on 200 new houses across Canada. Venture capital in Canada : a guide and sources, 1991

Venture Economics Canada. Toronto : Association of Canadian Venture Capital Companies, 1991. 95 p. : ill. CSI 99218.001. ISBN 0-9695215-0-2 MICROLOG 91-06707 2 fiche

This document provides an introduction to the Association of Canadian Venture Capital Companies (ACVCC); a definition of venture capital; and some historical background. It also discusses the venture capital market in Canada today; raising venture capital; and some Canadian success stories. It includes an ACVCC investment activity statistical review, and information on sources of venture capital in Canada. CA CO ST

La Vérification d'ici l'an 2000

par S. Graybeal...et al. Ottawa : Affaires extérieures et commerce extérieur Canada, Direction du contrôle des armements et du désarmement, 1991. v, 68 p. Bibliogr. (Études sur la vérification du contrôle des armements ; no 4) L'éd. anglaise (Verification to the year 2000) : 91-05748/1. ISSN 0840-7983 ISBN 0-662-96793-3 MICROLOG 91-05783 1 fiche

Cette étude décrit le rôle qu'a joué la vérification au cours des quarante dernières années dans le contexte de la limitation des armements, et les auteurs y définissent les tendances à venir. De plus, on formule des hypothèses sur les développements anticipés dans ce même domaine au cours des dix prochaines années et des prévisions sur l'évolution probable des efforts de vérification pendant la même période. On traite également

des différences importantes entre la vérification des accords bilatéraux et celle des ententes multilatérales. CA EX

Verification of vault response function solution

by A. Chan and A. Advani. Toronto : Ontario Hydro, Research Division, 1991. ii, 31 p. : ill. (Report ; no. 90-26-K) MICROLOG 91-07165 1 fiche

The Canadian concept for spent nuclear fuel disposal consists of enclosing the waste in containers which are then buried deep in sealed vaults in the Canadian shield rock formation. This concept will be modelled mathematically to ensure that the final design is reliable and will function within the limits set by the regulatory body. The model for the mass transport in the vault is based on a set of convection-diffusion differential equations incorporating the radionuclide decay chains. To increase confidence in the estimates of total radioactive output after burial in the vault, it is necessary to verify the Atomic Energy of Canada Ltd. (AECL) solution independently using a different method for source release rates and response function solutions. Instead of analytically inverting the Laplace transform solution, as AECL had done, the Laplace transform method with a numerical inversion was used. This report addresses the problem and solution methodology in detail and discusses the results of the calculations in comparison with those obtained by AECL. Appendices include the mathematical equations and solutions used, the computer code used in the solution, and the full set of results obtained. EN EV ON PR PS SC

Verification through field measurements of the extent of reduction in icebreaking resistance for icebreaking strakes

by D.N. Bruce Cowper, Ron Ritch ; for the Transportation Development Centre, Policy and Coordination Group, Transport Canada. Calgary, Alta. : Fleet Technology Limited, 1990. xi, 33 p. : ill. Bibliogr. MICROLOG 91-02516 1 fiche

Analytical demonstration of the potential reduction in ice resistance for non-optimal icebreaking bow forms by the addition of bow strakes. The strakes, which are continuous triangular-shaped appendages protruding 500 mm from the hull, are attached near the shoulder of the bow, both port and starboard, intersecting the icebreaking water line. They are designed to decrease the icebreaking resistance by breaking the ice in a bending rather than a crushing mode. A limited number of full-scale trials were conducted in level unbroken ice on the Saguenay River from February 5-9, 1990, to measure their effect on the icebreaking performance of the Type 1100 light icebreaking vessel CCGS Sir Wilfred Laurier. The onboard instrumentation system measured shaft torque, thrust, and rpm on both shafts, as well as ship speed. In addition, the ice thickness, salinity, and temperature were measured. CA PS SC TR

Verification to the year 2000

by S. Graybeal...et al. Ottawa : External Affairs and International Trade Canada, Arms Control and Disarmament Division, 1991. v, 56 p. Bibliogr. (Arms control verification studies ; no. 4) French ed. (La Vérification d'ici l'an 2000) : 91-05783/1. ISSN 0828-3664 ISBN 0-662-18347-9 MICROLOG 91-05748 1 fiche

This document outlines the role of verification in arms control during the last 40 years and identifies trends. It states assumptions regarding expected developments in arms control during the next 10 years, and forecasts the likely trends in verification during that period. It notes significant differences between the verification of bilateral and multilateral agreements. The study suggests that verification regimes will be increasingly synergistic, overlapping, and enhancing each other. The study concludes with suggestions for further research. CA EX

The Verme Weather Severity Index, harvest statistics, and white-tailed deer *Odocoileus virginianus* in southwestern Manitoba

by D.W. Soprovich. Winnipeg : Manitoba Natural Resources, 1990. iv, 32 p. Bibliogr. (Technical report ; 90-03) CSI 41119.208. MICROLOG 91-03092 1 fiche

The primary purpose of this study was to assess the usefulness of the data collected from Manitoba for modelling the impact of winter weather on white-tailed deer survival and recruitment. This necessitated an assessment of the quality of the data collected to calculate the Verme WSI (winter severity index) and the quality of the harvest data. A bibliography and recommendations are included at the end of the report. EV MS PR SC ST

Vermiculite in the Stanleyville area, eastern Ontario

by A. MacKinnon, P.W. Kingston and J.S. Springer. Toronto : Ministry of Northern Development and Mines, 1990. ix, 43 p. : ill., maps. Bibliogr. (Ontario Geological Survey mineral deposits circular ; 31) Fold. map not filmed. ISSN 0706-4551 ISBN 0-7729-6570-6 MICROLOG 91-02906 1 fiche

A Versatile computer program for mixed stock fishery composition estimation

by R.B. Millar. St. John's : Dept. of Fisheries and Oceans, Science Branch, 1990. iii, 29 p. Bibliogr. (Canadian technical report of fisheries and aquatic sciences ; no. 1753)
ISSN 0706-6457
MICROLOG 91-04665 1 fiche

This technical report describes a FORTRAN program (HISEA.FOR) to be used in the study of mixed stock fishery composition estimation. Program HISEA is a versatile research tool capable of performing analyses whose simplest use is to perform a composition analysis. The program can then be run in bootstrap mode to provide a non-parametric estimate of the reliability of the estimated compositions. In simulation mode, HISEA can quantify the effect of changing sample sizes, of adding or removing variables, and of adding or removing stocks. Simulation also identifies potential problems (such as high bias and variance in the composition estimators) that may arise due to different stocks being too alike. The report gives a program summary, describes the assumptions and implementation, and concludes with instructions for running HISEA.

Very high resolution meteorological satellite study of oil sands weather : a feasibility study

by J.M. Mercer and R.B. Charlton. Edmonton : Alberta Oil Sands Environmental Research Program, Meteorology and Air Quality Committee, 1977. xii, 44 p. : ill. Bibliogr. (AOSERP report ; 12)
MICROLOG 91-03417 1 fiche

This study was commissioned to determine the feasibility of using satellite imagery for meteorological and air quality studies in the oil sands area. Imagery from both meteorological and environmental satellite sensor systems was analyzed using the multispectral scanner (MSS) aboard the environmental LANDSAT satellites and the very high resolution radiometer (VHRR) aboard the NOAA meteorological satellites. Weather conditions such as clear and cold,

convective cloudiness, and widespread precipitation were studied, and the images and known weather conditions were then compared to determine the capability of the satellite-based sensors to identify specific meteorological phenomena. Particulate and thermal conditions of rivers and lakes were also considered.

Vision 2000 : quality and opportunity : the final report of Vision 2000 : a review of the mandate

Ontario Council of Regents for Colleges of Applied Arts and Technology. Vision 2000. Toronto : Ministry of Colleges and Universities, 1990. xi, 174 p. : ill. Bibliogr. ISBN 0-7729-7207-9
MICROLOG 91-01097 2 fiche

A quarter-century after its inception, the college system is at a crossroads. There is widespread concern among stakeholders that the system must undergo some fundamental changes in order to fulfil the career-education needs of individuals, communities, and the economy in the 21st century. This document addresses the need for renewal in the college system. It presents a renewal mandate, and specifies starting points for change.

Visitor '89 : a travel survey of visitors to British Columbia

prepared by the Tourism Research Group, B.C. Research [and] Campbell, Goodell and Associates. Ottawa : Industry, Science and Technology Canada ; Victoria : Ministry of Tourism ; Ministry of Regional and Economic Development, 1990. 117 p. : ill. CSI 37117.205. ISBN 0-7726-1175-0 MICROLOG 91-01678 2 fiche

The data presented in this report is a composite of data compiled from two separate surveys of non-resident visitors to B.C.: Visitor '87, and Visitor '89. The combined results present tourism researchers with the first opportunity to examine year-round travel to B.C. The purpose of these surveys was to produce data about visitors to B.C. and their trip characteristics. Specifically, their objectives were to determine visitor characteristics, origins and travel patterns; to determine visitor expenditures by travel industry sector and region; to determine visitor activities, likes and dislikes; to identify changes in visitor characteristics since 1979, and the significance of these changes for marketing and development strategies; and to classify visitors according to vacation type. Vitamins for swine -- Rev.

Edmonton : Alberta Agriculture, Pork Industry Branch, 1990. 8 p. Bibliogr. (Alberta pork production handbook) MICROLOG 91-00311 1 fiche

Pigs require vitamins in much smaller amounts than other nutrients because they do not use vitamins as an energy source or as a structural component. This pamphlet discusses those vitamins which should be added to the diet, giving a brief description of its function in the body, and deficiency and toxicity symptoms. AG AL PR SC

Vocabulaire de l'éducation -- 2e éd.

Québec : Gouvernement du Québec, Ministère de l'éducation, 1990. 229 p. ISBN 2-551-08314-5 MICROLOG 91-00603 3 fiche

Le vocabulaire a été rédigé à l'initiative de la Commission de terminologie de l'éducation, dont

la création marquait la volonté du ministère de l'Éducation de rationaliser son vocabulaire de travail, avec le concours de l'Office de la langue française. De ce fait, il constitue un vocabulaire officiel en même temps qu'adapté aux besoins changeants de la réalité pédagogique et administrative de l'éducation au Québec. En effet, outre ses quelque 275 entrées correspondant à autant de termes ayant fait l'objet d'avis terminologiques de l'Office publiés à la Gazette officielle du Québec, il a été enrichi, au moment de sa mise en forme définitive, de nombreux exemples d'emploi et de notes venant nuancer le sens des termes, en préciser la portée, et en expliquer les restrictions, le cas échéant. Au total, il traite environ 1 100 termes, ce qui constitue un remarquable travail de clarification et d'unification de la terminologie de l'éducation. ED PR QU

Vocabulaire de sémiologie de l'appareil locomoteur, vol. 1 : signes cliniques

sous la direction d'André Lussier et de Sylvie Dionne. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques ; Conseil de recherches médicales du Canada, 1990. xxv, 528 p. Bibliogr. (Bulletin de terminologie ; 198) Bilingue (Vocabulary of signs and...). ISBN 0-660-55810-6 MICROLOG 91-00189 6 fiche

Ce vocabulaire, premier d'une série spécialisée de quatre ouvrages terminologiques, porte sur la sémiologie clinique de l'appareil locomoteur, des études épidémiologiques ayant fait ressortir le haut taux de morbidité lié à cet appareil. Les deux vocabulaires suivants traiteront de sémiologie paraclinique, soit de radiologie et d'examen de laboratoire. Un dernier sera consacré à la sémiologie quantitative. Ce document est le fruit d'une étude exhaustive des signes et symptômes de l'appareil locomoteur, et s'adresse en particulier aux spécialistes de ce domaine: rhumatologues, physiatres, orthopédistes, etc. Il porte essentiellement sur la sémiologie de l'appareil locomoteur. CA LS SC

Vocabulaire de sémiologie médicale

sous la direction d'André Lussier, Philippe Dionne et Sylvie Dionne. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques ; Conseil de recherches médicales du Canada, 1990. xxiii, 426 p. Bibliogr. (Bulletin de terminologie ; 199) Bilingue (Vocabulary of medical signs...). ISBN 0-660-55811-4 MICROLOG 91-00190 5 fiche

Il était évident, depuis quelques années, que le manque d'uniformisation de la terminologie des sciences de la santé avait des répercussions considérables sur la recherche, l'enseignement et les soins de santé. Cet ouvrage résulte d'une tentative de normalisation de la terminologie de la sémiologie, partie de la médecine traitant des signes et symptômes qui traduisent la lésion d'un organe ou le trouble d'une fonction et représentant en quelque sorte la base de la science médicale. Comme il s'agissait de dresser un vocabulaire de sémiologie élémentaire, on a inclus le nom de maladies qui font partie intégrante d'une certaine symptomatologie. Le vocabulaire comporte par ailleurs, outre des unités terminologiques, des expressions sémiologiques qui sont consacrées par l'usage. Les termes sont accompagnés d'une définition, d'un contexte, et parfois d'une note. CA LS SC

Vocabulaire des additifs alimentaires

par A. Renaud. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques, 1990. xi, 401 p. Bibliogr. (Bulletin de

terminologie ; 195) Bilingue (Vocabulary of food...). ISBN 0-660-55668-5 MICROLOG 91-01854 5 fiche

Ce répertoire comporte 730 notions (soit près de 3 000 entrées) correspondant aux termes les plus courants de la chimie alimentaire. Il se veut un guide pour le spécialiste soucieux d'exactitude en matière de terminologie, un ouvrage de référence rigoureux et concis pour les terminologues, interprètes et traducteurs. En règle générale, les équivalents français d'une même dénomination anglaise figurent dans un ordre qui tend à refléter leur fréquence d'emploi. AG CA HE SC

Vocabulaire des céramiques techniques

par F. Parc et G. Gervais. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques, 1990. xiii, 217 p. Bibliogr. (Bulletin de terminologie ; 203) Bilingue (Vocabulary of advanced...). ISBN 0-660-55844-0 MICROLOG 91-03321 3 fiche

Le monde des céramiques techniques fait appel à des connaissances très variées comme l'illustre un tableau présenté en annexe. Ce document se propose de donner aux personnes appelées à traiter de ces matériaux, les termes dont elles ont besoin, le plus souvent dans des délais très serrés, mais aussi de les aider à mieux comprendre dans bien des cas la réalité dont il est question. Il touche à tous les aspects des céramiques techniques, depuis le stade de l'élaboration du matériau, jusqu'à celui de ses multiples applications, en effleurant au passage quelques considérations d'ordre économique. CA PS SC

Vocabulaire des interconnexions

Québec : Hydro-Québec, 1990. 85 p. Bibliogr. ISBN 2-550-20134-5 MICROLOG 91-02838 1 fiche

Le Vocabulaire vise à uniformiser et à normaliser la terminologie utilisée dans le domaine des interconnexions à Hydro-Québec, et à en implanter l'usage à l'échelle de l'entreprise. Il englobe plusieurs sous-domaines, tous directement ou indirectement reliés aux interconnexions. On trouve notamment des termes portant sur les lignes aériennes, la prévision de la demande, l'exploitation du réseau ainsi que sur les contrats et les conventions d'interconnexion. Toutefois, le vocabulaire s'en tient aux termes généraux de ces sous-domaines. EN PR PS QU SC

Vocabulaire des pensions

par L.P. Collier. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques, 1990. xi, 151 p. Bibliogr. (Bulletin de terminologie ; 201) Bilingue (Pensions vocabulary). ISBN 0-660-55784-3 MICROLOG 91-01855 2 fiche

La nomenclature de ce vocabulaire, qui comprend environ 1 200 entrées, assorties de 300 définitions et observations, a été établie à partir du dépouillement et de l'analyse d'un corpus documentaire recouvrant les divers aspects du régime des pensions du Canada. Il comprend des termes qui touchent à toute une gamme de sujets dont la réforme des pensions, l'épargne-retraite, les régimes de pension du gouvernement et du secteur privé, ainsi qu'à la législation fédérale et provinciale pertinente. Vocabulary of medical signs and symptoms

under the direction of André Lussier, Philippe Dionne and Sylvie Dionne. Ottawa : Translation Bureau, Terminology and Linguistic Services Branch ; Medical Research Council of Canada, 1990. xxiii, 426 p. Bibliogr. (Terminology bulletin ; 199) *Bilingual (Vocabulaire de sémologie...)*. ISBN 0-660-55811-4
MICROLOG 91-00190 5 fiche

For some years now, research, teaching and health care have been seriously affected by the lack of official terminology in the health sciences field. This work results from an attempt to standardize the terminology of semiology, that branch of medicine which forms the basis of medical science and treats of signs and symptoms, which provide evidence of disease or of a person's condition. The names of most laboratory tests and of all paraclinical methods of investigation were excluded, while certain radiological signs and elementary laboratory analyses were retained, as well as customary examination techniques and the names of diseases which represent a clearly defined group of symptoms. Terms are given in strict alphabetical order of English terms, with cross-references to the recommended English term. These terms are accompanied by a French equivalent, followed by a context or a definition.
CA LS SC

Vocabulary of signs and symptoms of the musculoskeletal system, vol. 1 : clinical findings

under the direction of André Lussier and Sylvie Dionne. Ottawa : Translation Bureau, Terminology and Linguistic Services Branch ; Medical Research Council of Canada, 1990. xxv, 528 p. Bibliogr. (Terminology bulletin ; 198) *Bilingual (Vocabulaire de sémologie...)*. ISBN 0-660-55810-6
MICROLOG 91-00189 6 fiche

This vocabulary is the first in a series of 4 specialized terminological works dealing with the clinical signs and symptoms of the musculoskeletal system. In addition to the usual signs and symptoms, the vocabulary includes all the eponymic signs and the manoeuvres used to elicit them. Certain diseases which represent a clearly defined group of symptoms have also been included. All the terminology of signs and symptoms relating to a certain area were gathered together in one section, along with the diseases which they indicate. Concepts discussed in French reference works but not found in English sources were omitted. The vocabulary is arranged in strict alphabetical order of English terms, with cross-references to the recommended English term. These terms are accompanied by a French equivalent, followed by a context of definition.

W.E. Ricker hydroacoustic cruise to study rockfish behaviour off northern Vancouver Island, March 14-23, 1990

by B.M. Leaman...et al. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1990. iv, 63 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2091) ISSN 0706-6473
MICROLOG 91-04228 1 fiche

The offshore rockfish and hydroacoustic programs are using hydroacoustic technology to examine the problems of biomass estimation from traditional bottom trawl surveys for rockfish. This report presents background calibration procedures, methods, and initial results of a cruise on the R/V W.E. Ricker to the northwest coast of Vancouver Island in March 1990. The cruise conducted detailed mapping of several representative slope rockfish aggregations, collected echo integration data on the three-dimensional biomass structure of the aggregations, and described their diel behavioural patterns. A trawl surveillance sonar was used to examine the behaviour of rockfish around the mouths of bottom and midwater trawls.

Walleye and goldeye fisheries investigations in the Peace-Athabasca Delta, 1975

by J. Kristensen, B.S. Ott and A.D. Sekerak. Edmonton : Alberta Oil Sands Environmental Research Program, Aquatic Fauna Technical Research Committee, 1976. xx, 103 p. : ill., maps. Bibliogr. (AOSERP report ; 2)
MICROLOG 91-03406 2 fiche

This report presents the results of investigations on walleye and goldeye in the Peace-Athabasca Delta in 1975 as part of a continuing effort to identify effects on walleye of the changes in water levels in the Delta that were caused by the upstream operation of the Bennett Dam (closed in 1968). The report describes walleye in the Richardson Lake-Lake Athabasca system; goldeye in the lake Claire-Mamawi Lake systems; field observations of the completed Little Rapids weir on Rivière des Rochers; and assessment of field trials of the feasibility of marking fish with acrylic dye. The report discusses spawning success, movement, distribution, age structure, weight-length and age-length relationships and determines the sex ratios for Lake Athabasca walleye. Results are generally incomplete because of the late start (mid-July) to field work.

In view of the growing desire of the native peoples of Canada to take control of their destiny, it became necessary to know more about what could happen on certain reservations as concerns the economy and especially local enterprise. This study sets out to accomplish this by underscoring the distinctive elements of native business dynamics on several Quebec reservations. On the basis of an extremely pertinent introduction to the socio-economic and cultural environment of the chosen terrains, while taking into account the numerous institutional constraints experienced by Canadian Indians, the study brings out the characteristics and the profiles of native entrepreneurs and businesses, revealing what is at stake in the process of creating businesses in the native milieu.

War criminals : the Deschênes Commission -- Rev.

by G. Purves. Ottawa : Library of Parliament, Research Branch, 1990. 14 p. Bibliogr. (Current issue review ; 87-03E) French ed. (*Les Criminels de guerre...*) on the same fiche. ISBN 0-660-13696-1
MICROLOG 91-01205 1 fiche

In recent years, the presence in Canada of individuals who may, as Nazis or Nazi collaborators, have committed war crimes in Europe 40 to 45 years ago has raised a number of issues, including: how many of these individuals currently reside in Canada; how they came to be here; whether they should be the object of investigation and prosecution; and, if so, what means might be used to bring them to justice. Since no authoritative study of these issues existed, the Deschênes Commission was appointed in 1985 to investigate and report on the subject. This paper contains the Commission's report.

The Waste crisis in the Greater Toronto Area : a provincial strategy for action

Toronto : Environment Ontario, 1991. 21 p.
MICROLOG 91-05470 1 fiche

This paper outlines a series of actions to be undertaken by the Government of Ontario to resolve the waste crisis in the Greater Toronto Area (GTA). These actions include those to accelerate and intensify '3R' waste reduction and diversion programs so that the need for disposal capacity for residential wastes is

decreased significantly; actions to increase residential waste disposal capacity through an accelerated search for and selection of long-term landfill sites consistent with the principles of environmental assessment; and emergency actions to close the 'disposal gap' or expected shortfall in waste disposal capacity between the time the existing GTA landfill sites are scheduled to close (starting in 1992) and the opening of the long-term landfill sites.

Waste management : guidelines and standards for hospitals and long term care facilities

Edmonton : Alberta Health, 1991. 26 p. Bibliogr.
MICROLOG 91-05341 1 fiche

Guidelines and standards to provide Alberta active treatment hospitals and long term care facilities with a reference for developing a policy statement and procedures for the management of hospital waste. Components include reduction, segregation, handling, packaging, containment, movement on-site, storage, transportation off-site, occupational health and safety issues, and final disposal. Information is also given on types of waste produced, their categorization, and safety procedures for personnel handling infectious waste.

Waste management issues in British Columbia

by A.N. Boydell. Victoria : British Columbia Round Table on the Environment and the Economy, 1990. 31 p. Bibliogr.
MICROLOG 91-04309 1 fiche

In 1990, the BC Roundtable on the Environment and the Economy was established to help fashion a vision of a sustainable future. This background report presents an overview of solid and liquid waste management issues and initiatives in BC; draws examples from other jurisdictions; and examines some alternative methods for municipal waste disposal. It also discusses how to pay for waste management, composting organic wastes, dealing with the quality and quantity of packaging materials, defining and dealing with 'problem' wastes, developing a framework for toxic wastes, and a '3-R' policy for liquid wastes.

Water balance of horses fed various diets : final report

by N.F. Cymbaluk. Regina : Saskatchewan Agriculture Development Fund, 1990. 13 p. Bibliogr. ISSN 0829-9455
MICROLOG 91-01876 1 fiche

Water balance in horses is based on consumption (feed and metabolic water) and excretion (feces, urine, respired or cutaneous). Few controlled studies have examined how diet or nutrient content affects water intake and excretion. This study examined the dietary effects on measurable water balance of the horses. Data from 8 separate digestion trials were used in which 39 different diets were evaluated. Dry matter, energy, crude protein and acid detergent fiber content of feed and fecal samples were determined by ADAC methods. Mineral concentrations were determined on acid digests of feed and feces. Calcium content was quantified by atomic absorption methods and phosphorus by colorimetric methods on the production of phosphomolybdate. Statistical methods included analysis of variance of unbalanced data, correlation analysis, and linear and stepwise regression analyses. Mean comparisons were made using Tukey's procedure. The percentage of total water excreted in urine and feces was calculated from weight-scaled data.

Water erosion prediction for soils in the Peace River region of B.C. : estimates using the universal soil loss equation

by L.J.P. Van Vliet. Ottawa : Agriculture Canada, Research Branch, 1989. v, 36 p. : ill., maps. Bibliogr. (Technical bulletin ; 1989-3E) (LRRC contribution ; no. 88-67) Fold. maps not filmed. ISBN 0-662-16751-1
MICROLOG 91-01106 1 fiche

This report describes the water erosion process and the universal soil loss equation (USLE) to soil map polygons for 6 map sheets (scale 1:100,000) in the B.C. Peace River region. The erosion prediction maps contain information on appropriate soil conservation measures for controlling water erosion and present the relevant inherent erodibility of the major soils in the region. The report outlines the mapping process, describes the limitations of erosion prediction, assesses the magnitude and extent of soil erosion based on data summaries in tables and figures for individual USLE factor values and for individual map sheets; and discusses soil conservation practices for controlling water erosion. Results of areal distribution by class of land use, soil erodibility, slope length, and slope steepness are presented for each map sheet and for the Peace River region. Map sheets were not filmed.

Water quality of the Peace River in Alberta

by R.D. Shaw...et al. Edmonton : Alberta Environment, Environmental Protection Services, Environmental Assessment Division, Environmental Quality Monitoring Branch, 1990. x, 247 p. : ill., maps. Bibliogr. MICROLOG 91-02238 3 fiche

The Peace River, which originates in B.C., drains much of northern Alberta. The drainage basin is sparsely populated and largely undeveloped, with the primary sources of effluent to the river and its tributaries within Alberta being the Procter and Gamble pulp mill at Grande Prairie, 5 continuously discharged effluents from municipal sewage treatment systems, and one abandoned oil well that discharges water. A water quality study was carried out between May 1988 and March 1989 to characterize water quality patterns over several seasons and years from the B.C.-Alberta border to the river's confluence with the Slave River; to identify factors that affect water quality in the mainstem (the Peace River proper); to assess mixing of the Smoky and Peace rivers; to describe the invertebrate animal communities (zoobenthos) that inhabit the bed of the Peace River; and to compare water quality in the river with Alberta Surface Water Quality Objectives and the Canadian Water Quality Guidelines.

Water vapour content and its effect on CABA regulator freeze-up

by D.J. Eaton. Downsview, Ont. : Defence and Civil Institute of Environmental Medicine, 1990. ii, 10 p. Bibliogr. (DCIEM report ; no. 90-R-29)
MICROLOG 91-00553 1 fiche

During the winter months, the Canadian Forces experienced problems with high water content levels in divers' compressed breathing gases. This study investigated the validity of the standard used to specify water content levels. An experiment was performed in which 4 diving regulators were tested in -1.0C to 0.0C salt water. Two conditions were tested, the first of which used compressed air saturated with moisture at 3000 psig and the second of which used air at 3000 psig with no more than 5 millilitres per cubic metre by volume water content. The protocol created freeze-up conditions by activating the second stage purge button for 5 sec., stopping for 5 sec. and then repeating this cycle until 1500 psig remained in the supply cylinder.

Waterfowl surveys on the Kawdy Plateau, northern British Columbia, during 1990

by J.S. Hawkins and J.J. Majski. Edmonton : Canadian Wildlife Service, Pacific and Yukon Region, 1991. vi, 33 p. : ill. Bibliogr. (Technical report series ; no. 116) ISSN 0831-6481 ISBN 0-662-18481-5
MICROLOG 91-04418 1 fiche

Northern BC is identified as a large unsurveyed area where very little is known about waterfowl populations. Generally, the area lacks wetlands of continental significance, but because of its large size, even low densities of waterfowl could be contributing substantially to BC waterfowl populations. In 1989 surveys were initiated of breeding waterfowl in low-lying areas of northern BC, on Liard Plain and Teslin Plateau. The 1990 survey determined the species composition and densities of waterfowl at higher elevations in northern BC on the Kawdy Plateau. Sampling was done on the basis of 2x2 km blocks, with those containing no water excluded. Each plot surveyed determined the number of ponds and lakes and their total area, number of marshes and their total area, total length of creeks, and elevation.

Waterton Lakes National Park : plan concept

Ottawa : Environment Canada, Parks Service, 1990. iii, 68 p. : ill., maps.
MICROLOG 91-03120 1 fiche

The Plan Concept is a critical product in the development of the new Waterton Lakes Park Management Plan. It sets forth a vision for the future of the Park, as well as numerous objectives and proposed actions for achieving that vision. Objectives and plan proposals are provided for: resource protection and management; enhancing the park experience and managing visitor impacts; Canadian Parks Service support facilities; and regional integration. In some cases, optional means of achieving an objective are presented. It also presents proposals regarding the role, size limits, density, form and character of the community of Waterton Park. Finally, it provides proposed roles and objectives for major frontcountry areas, and a summary of the environmental and social-economic impacts of plan proposals.

Waveform analysis and velocity structure at Quirke Mine and adjacent areas, part 1 : source parameters for evidence of the failure zone

by S. Chen and D.G.F. Hedley. Ottawa :

Canada Centre for Mineral and Energy Technology, Mining Research Laboratories, 1990. iv, 34 p. : ill. Bibliogr. (Report ; MRL 90-117(TR))
MICROLOG 91-01034 1 fiche

Quirke Mine has a history of rockbursts dating back to 1982. To reveal the detailed features of the failure zone in the hanging wall, a systematic study of waveform analysis with both geophones and accelerometers was carried out. The seismic velocity structures of P- and S-waves recorded by 5 sensors were used to evaluate the failure zone, as well as waveform analysis in frequency domain.

Waveform analysis and velocity structure at Quirke Mine and adjacent areas, part 2 : extension of the failure zone

by S. Chen. Ottawa : Canada Centre for Mineral and Energy Technology, Mining Research Laboratories, 1990. iii, 21 p. : ill. Bibliogr. (Report ; MRL 90-130(TR))
MICROLOG 91-01605 1 fiche

Of the recorded 91 rockbursts from 1987-89, 76 events were relocated or newly located in Quirke Mine and adjacent areas, and 93 percent of them occurred in Quirke Mine. Waveform analyses in frequency domain revealed the basic features of the failure zone. This paper deals with the extension of the failure zone in Quirke Mine, starting with a study of rockburst activity, velocity structure and the spatial distribution of the source parameters concerned with the characteristics of the failure zone.

Wawa District resource management plan for tourism -- Draft.

Toronto : Ministry of Natural Resources, 1990. iii, 68 p. : maps.
MICROLOG 91-04020 1 fiche

This plan outlines strategies for the effective management and sustainable development of natural resources associated with the tourism industry in Wawa District. It describes the natural resources and cultural features of the district and such concerns and issues as remote tourism, road accessible tourism, cottaging, and bear hunt outfitting. Management guidelines are presented for each of these concerns. Appendices include the draft strategy, selection criteria for remote lakes, a list of commercial outpost camp lakes, and public involvement and response in the process.

Weathering effects of natural organic acids and acid precipitation in Labrador lakes

by T.A. Clair. Moncton, N.B. : Environment Canada, Inland Waters Directorate, Water Quality Branch, 1991. iv, 26 p. Bibliogr. MICROLOG 91-04415 1 fiche

A survey of 42 lakes in Labrador was conducted in 1981 to provide a chemically and geographically comprehensive description of Labrador's water chemistry. Thirty five of the original sites were resurveyed in 1989 to see if changes in water chemistry had occurred over the intervening years. This report presents the results of the 1989 survey, which assessed the chemistry of lake waters from Labrador and compared results to those measured from the 1981 sampling program; using high quality data, established if there are east-west differences in sulfate which would indicate acid precipitation effects; and compared the relative contributions of mineral vs organic weathering areas receiving little or no mineral acid inputs. Samples in both 1981 and 1989 were collected in August and September.

Weight control in logging trucks

by A.C. Agarwal. Toronto : Ministry of

Transportation and Communications, Research and Development Branch, 1987. 44 p. : ill. Bibliogr.
MICROLOG 91-03386 1 fiche

During the fall of 1986, the raw forest products industry in the Northwestern Region demanded that axle weight control be removed from logging trucks, and that they be allowed to carry as much load as may be within legal length and height limits on such trucks. A preliminary study was conducted in December 1986 which showed that removing the axle weight control would seriously undermine the weight enforcement program and would not be technically acceptable. The 1986 study raised the questions of axle overload and the proper gross vehicle weight limit to ensure that the axles would not be overloaded. This study was undertaken to answer these questions, using data from a survey on existing truck configurations around Thunder Bay. This report contains the results of that survey and recommendations from the study.

Wetlands are not wastelands : application of wetland evaluation methods to the Cowichan Estuary, British Columbia : Pacific and Yukon Region Pilot Study, report 4

by A. Ferguson, G. Holman and R.U. Kistritz. Ottawa : Canadian Wildlife Service, Sustainable Development Branch ; Wildlife Habitat Canada, 1989. vi, 94 p. : maps. Bibliogr.
MICROLOG 91-02039 2 fiche

This study demonstrates the application of 3 wetland evaluation methods related to willingness-to-pay, opportunity cost and cumulative assessment, using the Cowichan Estuary on Vancouver Island as a case study. The study described the characteristics and distribution of wetland habitat types within the estuary. The impact of two hypothetical development projects on the physical, biological and socio-economic functions performed by the wetlands and the related wetland products, particularly fish, birds, recreation and water quality are assessed in detail. A habitat rating system is used to ascribe the wetland products to various habitat types and areas within the estuary.

Wetlands are not wastelands : application of wetland evaluation methodologies to the Minudie Wetlands, Nova Scotia : Atlantic Region Pilot Study, report 5

by P. Stokoe, J. Roots and B. Walters. Ottawa : Canadian Wildlife Service, Sustainable Development Branch ; Wildlife Habitat Canada, 1989. 85 p. : maps. Bibliogr.
MICROLOG 91-02038 1 fiche

In the Chignecto wetland area on the border between N.S. and N.B., maintenance of the area, which is heavily used as stopovers for migratory birds in the Atlantic flyway, has had to compete with agriculture. While agricultural use has declined, only about 1/5 of the area has been restored for wetlands and wildlife conservation. This report begins by surveying the current and potential uses of the Minudie wetlands, and the costs of these uses; distinguishes the socially valued functions of the alternative land uses in providing both products and environmental services; discusses the approaches taken, and the results obtained, in the applications of the willingness-to-pay, opportunity cost and cumulative impact assessment methods respectively; then applies these methods to the socially valued functions identified earlier. Conclusions and recommendations are presented from

applications of these methods, including critiques of the methods themselves.

Wetlands are not wastelands : prairie pothole wetlands, functions and evaluation : Prairie Region Pilot Study, report 7

by D.A. Young. Ottawa : Canadian Wildlife Service, State of the Environment Reporting ; Wildlife Habitat Canada, 1990. xiv, 211 p. : ill. Bibliogr.
MICROLOG 91-02037 3 fiche

This study further developed and tested a wetlands evaluation procedure and assessed the optimal use of prairie pothole wetlands for 2 study areas in Saskatchewan, using evaluation methods developed as part of similar investigations in other regions of Canada. The methods compared the relative economic benefits and costs of developing or conserving wetlands. Each of the 2 study areas consisted of a rural municipality more than 57,000 ha in size. The report covers the general methods and approaches used; describes the study areas and provides an inventory of wetland types in the areas, identifying significant wetland functions; analyses the benefits derived from the significant wetland functions in the study areas; describes the potential agricultural benefits to be derived from the drainage of these wetlands; and compares the respective benefits and costs of maintaining and developing wetlands to identify the wetlands' optimal use.

Wetlands are not wastelands : synthesis of pilot study results, report 6

by M.J. Bardecki. Ottawa : Canadian Wildlife Service, Sustainable Development Branch ; Wildlife Habitat Canada, 1989. 27 p. Bibliogr.
MICROLOG 91-02034 1 fiche

The 'Wetlands Not Wastelands' project was undertaken to develop and evaluate alternative procedures and evaluation methodologies which more adequately portray the true values of wetland resources. Based on a workshop focusing on alternate methods of evaluating renewable resources, a list of approaches was developed, including that based on willingness-to-pay for wetland values and functions; an opportunity cost approach applied to measurable wetland values and to the proposed alternate use; and a cumulative assessment approach synthesizing a broader range of social goals and objectives than those generally encompassed by the term 'economic'. This report summarizes the methodological findings and conclusions from the 3 pilot studies, critically evaluates and analyzes the scientific validity and practical applicability of the 3 methods, and provides a basis for discussion on the application of the 3 methods.

Where does ascochyta blight of lentil come from? Final report

by R.A.A. Morrall. Regina : Saskatchewan Agriculture Development Fund, 1990. 33 p. ISSN 0829-9455 MICROLOG 91-06695 1 fiche

Results of a project to study the gradients of ascochyta blight in lentil crops planted adjacent to infested residues of 1988 lentil crops. Sequential measurements were made of the spread of disease into the crop during the growing season and the effects of three possible management practices to restrict disease spread into the crop. The ascochyta infection was also studied to expand and confirm data from three previous years of study and to provide a means of developing tolerances for seed-borne ascochyta of lentil. Experiments were set up in four commercial crops of lentils in early May, with each crop planted in a field adjacent to one infected in 1988. Different treatments were used with each crop, with a control used in each case.

A Wildlife policy for Canada

adopted by the Wildlife Minister's Council of Canada. Ottawa : Environment Canada, Canadian Wildlife Service, 1990. 29 p. French ed. (*Une Politique des...*) : 91-03720/1 ISBN 0-662-18268-5 MICROLOG 91-03103 1 fiche

This paper presents a policy on wildlife management that was developed by federal, provincial and territorial governments, aboriginal organizations, wildlife professionals, nongovernmental organizations, and the general public. The policy was based on guidelines which were reviewed and evaluated in 1988 at the Federal-Provincial/Territorial Wildlife Conference. The wildlife in this policy refers to all wild organisms and their habitats and is intended to support an ecosystem approach to conservation.

Wildlife Toxicology Fund : Annual report 1988-89

Ottawa : Environment Canada, 1989. 59 p. Bibliogr. CS/ 32154.001. MICROLOG 91-00260 1 fiche

The Fund is a cooperative grant program initiated in 1985 by Environment Canada and the World Wildlife Fund to provide high quality scientific information that can be directly applied to the protection of wildlife in Canada from irreversible harm caused by toxic chemicals in the environment. This annual report describes the organization of the Fund, the projects sponsored from 1985 to the present, the administration of the Fund, and its public awareness activities. A list of reports available, grant commitments from 1988-91, projects funded from August 1988-December 1989, and some of the publicity materials are included.

Wind/wave hindcast extremes for the east coast of Canada, vol. I

by MacLaren Plansearch Limited [and] Oceanweather Inc. Downsview, Ont. : Environment Canada, Atmospheric Environment Service, 1991. xx, 235 p. : ill., maps. Bibliogr. MICROLOG 91-05694 3 fiche

Accurate specification of historical wind and wave fields is a critical requirement for many offshore engineering design and operation applications. This study followed a hindcast approach, using data from 1957-78, in specifying the extreme wave climate offshore the east coast of Canada, providing accurate surface wind and wave fields in the top-ranked wave-producing systems. The three target areas for the study were the Grand Banks of Newfoundland, the Scotian Shelf, and Georges Bank.
AP CA PS SC

Wind/wave hindcast extremes for the east coast of Canada, vol. II : Georges Bank tropical storm hindcast

by MacLaren Plansearch Limited, and Oceanweather Inc. Ottawa : Environment Canada, Atmospheric Environment Research, 1991. iii, 203 p. : ill., maps. Bibliogr. MICROLOG 91-06636 3 fiche

To develop even site-average extremes for tropical cyclones on Georges Bank would require the hindcasting of 30 cyclones. This report describes the results of a pilot study of 10 tropical cyclone-generated sea-states using the ODGP wind and wave models specifically adapted on the time (1-hour time step) and space (20 n. mi. grid spacing) scales needed or accurate hindcasting of tropical cyclones. The report summarizes the hindcast methods and results and interprets them for the degree to which tropical cyclones need to be considered for a full description of the extreme wind and wave climate on Georges Bank.

Wintering ground surveys for piping plovers in Cuba

by J.P. Goossen and J. Sirois. Ottawa : Canadian Wildlife Service, 1990. 17 p. Spanish ed. (Inventario de las áreas de invernación para el Frailecillo Silbador *Charadrius melodus* en Cuba) included. MICROLOG 91-01949 1 fiche

Piping plovers, currently classified as an endangered or threatened species in North America, have a population size of only 4300 adults, 30 percent of whom winter along the Gulf of Mexico and southern Atlantic coast of the U.S. Relatively few sightings have been reported for various Caribbean Islands, with

Cuba being one location recommended as an area to search. A joint study was begun with Cuba in January 1990 to carry out surveys in coastal and suitable inland areas to determine the status, distribution and abundance of piping plovers; to identify specific habitats used; to document real or potential threats to plovers and/or their habitat; to determine whether the eastern and/or western piping plover subpopulation use Cuban coastal areas by searching for birds colour-banded in North America; and to assist in developing an indigenous piping plover monitoring program.

Women's labour force participation, fertility rates, and the implications for economic development and government policy

by M. Townson. Ottawa : Institute for Research on Public Policy, Studies in Social Policy, 1987. 53 p. (Discussion paper ; 87.A.11) CSI 99545.202.
MICROLOG 91-01498 1 fiche

Since the 1960s, women have been streaming into the labour market. Twenty years ago, only 31 percent of adult women (that is women aged 25 or older) participated in the paid labour force. By 1986, more than 52 per cent of women who were 25 or older were in the work force. Econometric models which have tried to account for this dramatic change fail to capture the strength of social change--the influence of the women's movement, for example, in changing societal attitudes to women working outside the home. Because these influences are almost impossible to quantify, they tend to be overlooked in the literature, yet their impact on women's labour supply may be considerable. This paper acknowledges the extent of the changes that have already taken place, and then examines the implications of those changes for the future. It also looks at general trends in women's labour force participation, and outlines some challenges to traditional views and explanations for women's labour supply. It then discusses some implications for government policy and economic development. Finally, it draws conclusions from the analysis and suggests areas for further research.

Wood density of Canadian tree species

by J.S. Gonzalez. Edmonton : Canadian Forestry Service, Northern Forestry Centre, 1990. vi, 130 p. Bibliogr. (Information report ; NOR-X-315) ISSN 0704-7673 ISBN 0-662-18084-X
MICROLOG 91-03920 2 fiche

Wood density of trees along with estimates of wood volume allow users to predict the dry-weight productivity of a unit area of land or the productivity potential of a stand of trees. This report gives total-stem and breast-height wood density data for Canadian tree species grown in Canada, the U.S., and outside North America, using published and unpublished sources. Calculations for mean density and coefficient of variation are made where necessary, and variations, geographic sources, and characteristics of sample trees are included for comparisons of density values. Sampling locations, methods of sampling, and density calculations are described. To assist in converting wood density values from green-volume to oven-dry-volume basis, the conversion formula and a table of percent volumetric shrinkage are also given.

Wood pole management by non-destructive evaluation techniques : Britannia Road Line, Milton Hydro

by S.G. Krishnasamy, A.A. Shehata and B.W. Warkentin. Toronto : Ontario Hydro, Research Division, 1990. ii, 28 p. : ill. (Report ; no. 90-150-K)
MICROLOG 91-02131 1 fiche

One of the essential elements in managing wood pole lines is to assess the strength of in-service poles. The traditional pole testing methods, such as the boring technique, are based more on personal judgement and experience rather than on consistent testing procedures. One non-destructive evaluation (NDE) technique, developed by the Electric Power Research Institute, is used in this study to develop a maintenance program for a wood pole distribution line in Milton Hydro. The report describes a 5-year maintenance program for the Britannia Road distribution line. The NDE equipment is used to establish the strength of each individual pole in the line, then the strength data and the wind and ice loads obtained from climatic data are used to evaluate the adequacy of each pole and to make decisions on pole management.

Wood supply for specialty mills : the report of the Forestry Task Force

prepared by Hugh D.W. Ney. Victoria : Ministry of Regional and Economic Development, 1989. ii, 33 p. On cover: Vancouver Island/coast. ISBN 0-7726-1042-8
MICROLOG 91-05674 1 fiche

The specialty wood products segment of the forest industry has excellent prospects for growth, although a major challenge facing independent, secondary manufacturers is that of raw material supply. This study was carried out to determine the extent of this problem and to obtain the reaction of independent mill operators to various programs and proposals aimed at alleviating the problem. The study identified the independent businesses engaged in producing specialty wood products in Region One; the products that each of these businesses produce and their sources of raw material; problems impeding future expansion and wood supply problems; their suggestions for solving raw material supply problems; and their interest in a computerized system for sourcing raw material.

Wood waste generation and management in Ontario

Toronto : Ministry of Energy ; Ministry of the Environment, 1991. v, 111 p. ISBN

0-7729-7708-9
MICROLOG 91-05930 2 fiche

This report identifies major wood waste generators in Ontario, the amount and type they generate, and the ways in which this is managed. From this data, estimates were made of the total amount generated in Ontario, the amount reused, recycled or recovered for energy value, and the amount discarded in landfills or burned outdoors. A questionnaire was sent to saw mills and related mills, secondary forest products industries, other manufacturing industries with greater than 500 employees, municipalities, national and provincial parks, conservation authorities, waste management companies and demolition companies to identify the major wood waste generators in southern Ontario, the type and quantities generated by each, current management practices of each generator, and the costs associated with management. In addition, existing data on wood waste generation by the above sectors and the construction, demolition and commercial landscaping industries has also been used.

Wood-waste-fuelled, indirectly-fired gas turbine cogeneration plant for sawmill applications, phase II : preliminary engineering and financial analysis of alternative configurations

by Canadian Resourcecon Ltd. ; in association with R.L. Evans & Associates Ltd. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1990. xi, 33 p. : ill. Bibliogr. CANMET contract: 57SZ.23283-8-6058. ISBN 0-662-18031-3
MICROLOG 91-01211 1 fiche

This report covers the third and final phase of an investigation into the feasibility of an innovative type of cogeneration system. In phase I, completed in February 1987, a generic design for a cogeneration system using an open cycle gas turbine as the prime mover to generate electrical power, while process heat for lumber dry-kilns is obtained by waste heat recovery from the turbine exhaust gas, was prepared for a typical sawmill producing 50 million board feet of lumber. Phase II, completed in March 1988, prepared a preliminary engineering design and financial analysis of the system at the Boston Bar, B.C. mill operated by Fletcher Challenge Canada. Phase III investigated 4 additional configurations of the cogeneration system ranging from wholly gas-fired to wholly woodwaste-fired, with two intermediate cases involving natural gas at 27 percent and 50 percent of total fuel input to the system. Heat balances and schematic drawings were prepared for each of the 4 options examined.

Workshop on Forest Energy Production as a Means of Improving Silvicultural Practice : proceedings

edited by J. Richardson. Ottawa : Forestry Canada, 1991. vi, 31 p. : ill. Bibliogr. Workshop undertaken as part of the International Energy Agency, Bioenergy Agreement, Task VI, Activity 1, Conventional Forestry Systems. ISBN 0-662-18816-0
MICROLOG 91-05664 1 fiche

Task VI of the International Energy Agency's bioenergy agreement is concerned with biomass supply from conventional forestry. Within that context, a number of international activities have been undertaken. The objective of Activity 1 is to develop a state-of-the-art review of current forest management strategies and techniques used by participating countries to produce wood for energy in conventional forestry systems. The proceedings of this workshop on forest energy production as a means of improving silvicultural practice are presented in the form of six papers from Canada, Sweden and the UK.

Young offender protocol

Edmonton : Alberta Family and Social Services ; Alberta Solicitor General, 1990. 45 p.
MICROLOG 91-06794 1 fiche

The intent of the Department of Family and Social Services and the Department of the Solicitor General is to set rules of procedure for ongoing interactions between the staff of both departments and their agents in dealing with joint clients. This protocol describes how the two departments and their agents should work together for the benefit of youths who have joint status or for those who need Family and Social Services involvement yet have no child welfare status. The protocol creates a process for the resolution of day to day issues, thereby laying the foundation for good working relationships and for a more effective coordinated provision of services to youth.

The Young Offenders Act -- Rev.

by P. Rosen. Ottawa : Library of Parliament, Research Branch, 1990. 24 p. Bibliogr. (Current issue review ; 86-13E) French ed. (La Loi sur les jeunes...) on the same fiche. ISBN 0-660-13678-3
MICROLOG 91-02107 1 fiche

This current issues paper summarizes the principal elements of the Young Offenders Act, noting, where appropriate, significant differences between it and the earlier Juvenile Delinquents Act. It also deals briefly with those areas of the Act which have become controversial or which are said to be in need of reform. A chronology and bibliography conclude the paper.
CA CI JU

by P. Rosen. Ottawa : Library of Parliament, Research Branch, 1990. 22 p. Bibliogr. (Current issue review ; 86-13E) French ed. (La Loi sur les jeunes...) on the same fiche. Revised August 14 1990. ISBN 0-660-13871-9
MICROLOG 91-04827 1 fiche

The Young Offenders Act adopts what is known as the 'justice' model of juvenile criminal justice. Such a model continues to recognize the special needs and the vulnerability of youth, but also places emphasis on both protection of the public, and the rights of young people. The emphasis is less on social intervention, and more on the delineation of rights and obligations. This review summarizes the principal elements of the Young Offenders Act, noting, where appropriate, significant differences between it and the Juvenile Delinquents Act which it replaced. It also deals briefly with those areas of the Act which have become controversial or which are said to be in need of reform.

Yukon River headwater lakes study, 1983 and 1985 : observations and analysis

by P.F. Hamblin. Ottawa : Environment Canada, Inland Waters Directorate, Canada Centre for Inland Waters, National Water Research Institute, Lakes Research Branch, 1990. xiii, 100 p. : ill. Bibliogr. (Scientific series ; no. 175) French ed. (*Etude des lacs du cours...*) : 91-03713/2. ISBN 0-662-18449-1
MICROLOG 91-03730 2 fiche

In 1981, a study was initiated on the circulation and thermal regimes of the Yukon River headwater lakes and of the sensitivity of these lakes to possible future hydroelectric power development in the Yukon River basin. The first phase involved the determination of the bathymetry of the major lakes and their annual thermal and salinity cycles. Lake Laberge was selected as a typical example of a large northern reservoir. In 1983, flow and thermal structure were measured using a current meter and a temperature/conductivity profiler to study inflow region in greater detail during the ice-covered period. Part I of the report presents the results of this study. In 1985, a study of the outflow dynamics was conducted. Marsh and Tagish Lakes. Part II presents the detailed circulation and thermal structure observations, as well as the sensible heat transfer coefficient between the water and ice

cover, indicated as a key unknown parameter from the early modelling results of Lake Laberge.

Zero discharge through innovative application of intensive silviculture to effluent disposal from a small Canadian wastewater treatment plant

by P.J. Loughton, C.S. Papadopol and P. Jaciw.

Maple, Ont. : Ministry of Natural Resources, Ontario Tree and Forest Biomass Institute ; Willowdale, Ont. : R.V. Anderson Association Limited, 1990. 8 p. In Water Science Technology : vol. 2, no. 3/4, 1990. MICROLOG 91-06805 1 fiche

This report describes the design and practical experience gained from the operation of a small activated sludge wastewater treatment facility, incorporating zero effluent discharge through evapotranspiration utilizing a multi-clonal poplar forest. Secondary treated effluent was seasonally applied to a forested plantation through an automated sprinkler system with the rate calculated daily based on information from an automatic weather station and using a modified Penman approach.

Des Zones humides pour la planète : sites Ramsar du Canada : la Convention relative aux zones humides d'importance internationale, particulièrement comme habitats des oiseaux d'eau (la Convention de Ramsar)

par D.I. Gillespie, H. Boyd et P. Logan. Ottawa : Environnement Canada, Service canadien de la faune, 1991. 40 p. : ill. L'éd. anglaise (*Wetlands for the world : Canada's...*) : 91-06634/1. ISBN 0-662-96675-9
MICROLOG 91-06633 1 fiche

Les zones humides comprennent les marais, marécages, marnières torrentielles, tourbières hautes et plans d'eaux libres tels les tourbières basses et les étangs. Cependant, elles sont menacées non seulement au Canada, mais sur tout le globe. En 1971, des représentants de dix-huit pays et de plusieurs associations internationales soucieux de l'étendue alarmante des pertes de zones humides à travers le monde se sont réunis dans la ville de Ramsar pour rédiger la Convention relative aux zones humides d'importance internationale, particulièrement comme habitats des oiseaux d'eau. Ce document présente les faits saillants de cette convention.

Zooplankton distribution and associated biological, physical and chemical data : Barkley Sound, Vancouver Island, April 1987 and May 1988 (MASS Program)

by J.R. Forbes...et al. Sidney, B.C. : Dept. of Fisheries and Oceans, Institute of Ocean Sciences, 1990. v, 139 p. : ill., maps. Bibliogr. (Canadian data report of hydrography and ocean sciences ; no. 76) ISSN 0711-6721
MICROLOG 91-01833 2 fiche

The marine survival of salmon (MASS) program is an inter-disciplinary study focused on the relationships between physical and biological oceanographic events and the dispersal and survival of salmon during their early sea life. The main effort of the program is a survey of the distribution, abundance and size frequency of zooplankton and an investigation of the underlying biological and oceanographic processes controlling the zooplankton community in Barkley Sound, southwest Vancouver Island. This report presents data collected in April 1987 and May 1988. For 1988, maps of the surface distribution of zooplankton biomass by size, salinity and temperature, obtained by a flow-through sampling system, are provided. Zooplankton identity, abundance and size distribution determined from vertical net haul and BIONESS samples, together with biological, physical and chemical observations from CTD/rosette casts are reported. Data from 1987 are restricted to zooplankton identity, abundance and size distribution determined from vertical net haul samples.

Zooplankton of Dauphin Lake, Manitoba, 1982, 1983 and 1984

by M.K. Friesen and J.A. Mathias. Winnipeg : Dept. of Fisheries and Oceans, Central and Arctic Region, 1990. iv, 27 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2083) This is the 17th manuscript report from the Central and Arctic Region, Winnipeg. ISSN 0706-6473
MICROLOG 91-00196 1 fiche

Dauphin Lake in southwestern Manitoba was selected as the research site to develop rehabilitation methods for the walleye fisheries. Zooplankton are essential items in the diet of larval walleye and the only study conducted was done in the 1950s and was general. This study identified the zooplankton species and estimated their abundance, horizontal distribution and biomass in 1982, 1983, and 1984. These data were compared to data from Lake Winnipeg, the Methley fish rearing ponds located on the east shore of Dauphin Lake, 3 pothole lakes in southwestern Manitoba near Erikson, and 4 artificially made lakes at Fort Whyte in the southwestern section of the City of Winnipeg.

Zr2Fe tritium scavenger beds

by N.P. Kherani and W.T. Shmayda. Toronto : Ontario Hydro, Research Division, 1990. i, 27 p. : ill. Bibliogr. (Report ; no. 89-199-K)
MICROLOG 91-04549 1 fiche

Tritium handling systems housed within secondary enclosures usually impose a chronic and an acute tritium load on the secondary treatment. This tritiated atmosphere requires a tritium scavenging treatment to ensure safe working conditions and to minimize tritium emissions to the outside environment. One viable and attractive option is to utilize a regenerable metal getter, zirconium-iron alloy Zr2Fe, to scavenge the tritium directly from the secondary atmosphere. This report documents the key aspects of 800 g and 5 kg zirconium-iron tritium scavenger beds, briefly describing them and their operating characteristics.

Description and operation of the Humane Trapping Research Facility at the Alberta Environmental Centre. MICROLOG 91-06231 1 fiche

Barrett, S.

East bayfront and port industrial area : pathways : towards an ecosystem approach : a report of phases I and II of an environmental audit of Toronto's east bayfront and port industrial area. MICROLOG 91-04487 2 fiche

Barron, S.R.

Survey of the medical impact on environmentally hypersensitive people of a change in habitat. MICROLOG 91-06784 2 fiche

Barry, D.

Documents on Canadian external relations, vol. 18 : 1952. MICROLOG 91-02973 18 fiche

Documents relatifs aux relations extérieures du Canada, vol. 18 : 1952. MICROLOG 91-02973 18 fiche

Bartel, H.

Housing expenditures : a look at how demographic factors influence them. MICROLOG 91-03975 2 fiche

Barth, A.

Embryonic loss in cattle caused by chromosomal translocations : final report. MICROLOG 91-02632 1 fiche

Bartlett, W.C.

Le Contrôle des armes à feu : analyse de la proposition gouvernementale de 1989. MICROLOG 91-01133 1 fiche

Le Contrôle des armes à feu : les lois en vigueur au Canada, au Royaume-Uni et au États-Unis. MICROLOG 91-01135 1 fiche

Gun control : analysis of the government's 1989 proposal. MICROLOG 91-01133 1 fiche

Gun control legislation in Canada, the United Kingdom and the United States. MICROLOG 91-01135 1 fiche

Barton, J.A.

Service quality : an introduction. MICROLOG 91-04216 1 fiche

Bartoszek, F.E.

Efficiency improvement in fluorescent lamps by isotopic tailoring of mercury. MICROLOG 91-00789 1 fiche

Base Metal Symposium (1990 : Bathurst, N.B.)

Field guide to massive sulphide deposits in northern New Brunswick. MICROLOG 91-01053 2 fiche

Baseline Market Research

Etude portant sur la satisfaction des employeurs face aux services du Ministère de l'enseignement supérieur et de la formation et des collèges communautaires : rapport final. MICROLOG 91-02802 1 fiche

A Study of employer satisfaction with services of DAET and community colleges : final report. MICROLOG 91-02801 2 fiche

Basham, D.

Forestry investment decisions made easy on personal computers, FIDME-PC. MICROLOG 91-05425 1 fiche
